**Sierra Pacific Industries: wish they were!**

**Sierra Pacific Industries is destroying the forests of the Sierra Nevada**

The Sierra Nevada Mountain Range is one of California's most breathtaking landscapes—and one of the world's most precious resources. Millions of people visit each year.

Unfortunately, clearcut by clearcut, the forests of the Sierra are being destroyed. Sierra Pacific Industries (SPI) has clearcut hundreds of thousands of acres of public and private land. And they have plans to clearcut another million acres of the Sierra, turning a vast, irreplaceable landscape into endless rows of tree farms. There are ways to log sustainably, but SPI is needlessly clearcutting our forests instead of preserving them for future generations. Help us stop the destruction!

Dear SPI: Stop clearcutting the Sierra! Sincerely,

Name Stalo Alvis  
Address 170 Tennis Way  
City Auburn State CA ZIP 95603

# THE COALITION TO STOP CLEARCUTTING CALIFORNIA

Industrial-scale clearcutting is:

- Converting California's diverse forests to fire-prone tree plantations
- Threatening water quality
- Promoting extensive use of chemical herbicides
- Contributing to global climate change
- Endangering wildlife and their habitat
- Damaging private property values and businesses in affected regions

We, citizens of California and supporters of sustainable logging, call upon the:

- Governor of California
- Legislature of California
- California Department of Forestry and Fire Protection
- Environmental and Natural Resources agencies of the state of California

To use all means at their disposal to end this destructive practice.

# THE COALITION TO STOP CLEARCUTTING CALIFORNIA

Industrial-scale clearcutting is:

- Converting California's diverse forests to fire-prone tree plantations
- Threatening water quality
- Promoting extensive use of chemical herbicides
- Contributing to global climate change
- Endangering wildlife and their habitat
- Damaging private property values and businesses in affected regions

We, citizens of California and supporters of sustainable logging, call upon the:

- Governor of California
- Legislature of California
- California Department of Forestry and Fire Protection
- Environmental and Natural Resources agencies of the state of California

To use all means at their disposal to end this destructive practice.

# THE COALITION TO STOP CLEARCUTTING CALIFORNIA

Industrial-scale clearcutting is:

- Converting California's diverse forests to fire-prone tree plantations
- Threatening water quality
- Promoting extensive use of chemical herbicides
- Contributing to global climate change
- Endangering wildlife and their habitat
- Damaging private property values and businesses in affected regions

We, citizens of California and supporters of sustainable logging, call upon the:

- Governor of California
- Legislature of California
- California Department of Forestry and Fire Protection
- Environmental and Natural Resources agencies of the state of California

To use all means at their disposal to end this destructive practice.

**THE COALITION TO STOP CLEARCUTTING CALIFORNIA**

- Industrial-scale clearcutting is:
- Converting California's diverse forests to fire-prone tree plantations
- Promoting extensive use of chemical herbicides
- Contributing to global climate change
- Endangering wildlife and their habitat
- Damaging private property values and businesses in affected regions

We, citizens of California and supporters of sustainable logging, call upon the:

- Legislature of California
- California Department of Forestry and Fire Protection
- Environmental and Natural Resources agencies of the state of California

To use all means at their disposal to end this destructive practice.

# THE COALITION TO STOP CLEARCUTTING CALIFORNIA

Industrial-scale clearcutting is:

- Converting California's diverse forests to fire-prone tree plantations
- Threatening water quality and quantity
- Promoting extensive use of chemical herbicides
- Contributing to global climate change
- Endangering wildlife and their habitat
- Damaging private property values and businesses in affected regions

We, citizens of California and supporters of sustainable logging, call upon the:

- Governor of California
- Legislature of California
- California Department of Forestry and Fire Protection
- Environmental and Natural Resources agencies of the state of California

To use all means at their disposal to end this destructive practice.

### Industrial-scale clearcutting is:

- converting California's diverse forests to fire-prone tree plantations
- endangering wildlife and their habitat
- threatening water quality
- promoting extensive use of chemical herbicides
- contributing to global climate change
- damaging private property values and businesses in affected regions
- destroying the state's natural beauty

### We, Citizens of California and supporters of responsible logging, call upon the:

- Governor of California
- Legislature of California
- California Department of Forestry and Fire Protection
- Environmental and Natural Resources agencies of the State of California

### To use all means at their disposal to end this destructive practice.

# THE COALITION TO STOP CLEARCUTTING CALIFORNIA

Industrial-scale clearcutting is:

- Converting California's diverse forests to fire-prone tree plantations
- Threatening water quality
- Promoting extensive use of chemical herbicides
- Contributing to global climate change
- Endangering wildlife and their habitat
- Damaging private property values and businesses in affected regions

We, citizens of California and supporters of sustainable logging, call upon the:

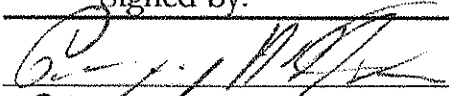

- Governor of California
- Legislature of California
- California Department of Forestry and Fire Protection
- Environmental and Natural Resources agencies of the state of California

To use all means at their disposal to end this destructive practice.

# THE COALITION TO STOP CLEARCUTTING CALIFORNIA

85-2

Industrial-scale clearcutting is:

- Converting California's diverse forests to fire-prone tree plantations
- Threatening water quality
- Promoting extensive use of chemical herbicides
- Contributing to global climate change
- Endangering wildlife and their habitat
- Damaging private property values and businesses in affected regions

We, citizens of California and supporters of sustainable logging, call upon the:

- Governor of California
- Legislature of California
- California Department of Forestry and Fire Protection
- Environmental and Natural Resources agencies of the state of California

To use all means at their disposal to end this destructive practice.

# THE COALITION TO STOP CLEARCUTTING CALIFORNIA

Industrial-scale clearcutting is:

- Converting California's diverse forests to fire-prone tree plantations
- Threatening water quality
- Promoting extensive use of chemical herbicides
- Contributing to global climate change
- Endangering wildlife and their habitat
- Damaging private property values and businesses in affected regions

We, citizens of California and supporters of sustainable logging, call upon the:

- Governor of California
- Legislature of California
- California Department of Forestry and Fire Protection
- Environmental and Natural Resources agencies of the state of California

To use all means at their disposal to end this destructive practice.
