September 22, 2007

Dear California Air Resource Board Members,

My name is Karen Kavin and both myself and my mother have suffered with allergies most of my life. In addition, my 15 year old son also suffers from breathing problems and allergies.

In the past two months I found an air sanitizer and purifier that have changed my LIFE. The purifier uses ozone as part of the process to purify the air. I have tried so many other products most of my life and never has such fantastic results from this product.

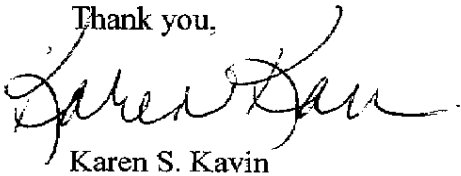

My mother, who is nearing 80 years old, has also had allergies and sinus problems also.

I bought my mother a purifier and she is finally, after nearly 60 years feeling better, breathing wonderful, clean air at home.

I cannot understand why you would want to take away a product that has helped me in such a positive way. Not only myself, but my other and my son. My breathing is 100% better. I no longer suffer from sinus problem. For years I have been on and off antibiotics and in the past two months I have never felt better in my life.

Please do not take away my option to use this purifier to help myself, my son and my mother. I sincerely want my mother to live a longer fuller, healthier life.

Thank you,

A handwritten signature in cursive script that reads "Karen Kavin". The signature is written in black ink and is positioned above the printed name.
