As an Iowan, I can Say that Ethanol and other "Agro-Fuels", while stimulating Possibly to the economy, they are perhaps more destructive than actually constructive. In partucular concern is the degredation of nutrient rich topsoil in I awa due to Single crop, large scale agricultural practices. We are thankful for Obama's support on Earth Day for our wind-turbine production plants in Newton, Iowa, and patiently await the alternative transportation to accompany:t.

Best regards

Frust Stephen Aff
