

Protecting California's air since 1971

11-4-5
Martin Schlager

PETITION

To: James N. Goldstene, Executive Officer, California Air Resources Board

Subject: **Set mandatory speed limits for oceangoing vessels now!**

Dear Mr. Goldstene:

I urge you to establish a mandatory rule to reduce oceangoing vessel speeds as soon as possible. ARB has delayed this rule for too long.

There is strong evidence that a robust requirement will protect coastal communities and reduce toxic air pollution and greenhouse gas emissions contributing to the climate crisis. Moreover, case studies demonstrate that mandatory ship speed limits are more effective than voluntary ones in saving whales from being fatally struck by speeding ships.

I support a rule that includes:

- a mandatory speed limit of 10-12 knots
- regulation of all ships, not just those destined for a major port
- a 40-nautical-mile zone for the entire California coast

I urge quick action to pass this important regulation for the protection of coastal communities, the prevention of marine mammal fatalities and reduction of greenhouse gas emissions.

Signed by:
