**Camarillo Engineering Inc. Applications for Carl Moyer Funding
November 2006 Through May of 2007.**

**1. In November of 2006 we applied for PM retrofits made by the Huss Company
27 machines were applied for through South Coast Air District,
Cost of the project \$766,412.00. All applications were turned down.
Reason: First come first serve.**

**2. In December of 2006 we applied for PM retrofits made by Huss Company
7 machines were applied for through Antelope Valley Air District
Cost of the project \$319,553.00 All applications were turned down.
Reason: We do not have a local office in Antelope Valley and they were only
approving local applicants.**

*** For the record we have worked grading and underground utility jobs in the Antelope
Valley steady over the last three years.**

**3. In March 2007 we applied for 11 repowers with retrofits PM filters from Ventura
County Air District.
11 Machines total project cost \$2,650,402.38 All applications were turned down.
Reason: Not cost effective. Not enough hours logged over a three-year period in
Ventura County.**

**4. In May 2007 we applied for 1 repower with retrofit PM filter and 1 with retrofit only.
This application was made in Antelope Valley Air District.
1 repower and retrofit approved \$177,512.30
1 retrofit cost \$57,925.01 denied
Reason: Not cost effective**

**5. In May 2007 we applied for 7 repowers and retrofits with PM filters from Multi-
District.
7 repowers and retrofits status: Unknown
Total amount requested \$1,141,997.00
Outcome: Not yet announced**

**Present situation
40 applications turned down
1 application approved
7 applications in limbo**
