ALL INDIVIDUAL SPEAKERS AND ORGANIZED PRESENTATIONS TO THE AIR RESOURCES BOARD ARE SUBJECT TO TIME LIMITS IMPOSED AT THE DISCRETION OF THE CHAIR.

Persons desiring to address the Air Resources Board must complete and deliver a speaker slip to the Clerk of the Board **prior** to the commencement of the item.

(The Chair will call you to the podium to speak at the appropriate time.) Rev. 2/16/07

To the Board,

5-25-07
SAN DIEGO

Please Note I'm NOT Against

The proposal - per say - Non FM I

Per Allocation -

40+ Employees
28 yrs of Equip. 4960hp
Sales < 10,000,000

My Concern is the Cost And How
Quick the Plan/Goal is Reached.

The Cost is Optimistic - Best to

Current Fleet Estimates are ridiculous

Current Actions are reflecting that.

A longer time to reach goals would

Give us a better chance of

Complying. Costs are serious and

Time would help.

- The Sizing of Fleets (Small, Medium, Large)

Should be reconsidered, I'm a Contractor

that Qualifies as a medium - but almost

as a large (30-40 hp) ^{AWAY} so by ~~split~~

Buying 1 piece would qualify me

as a large Contractor - AND I'm NOT
AND could not comply I sure.

I consider myself as a small Contractor - please raise
the hp limits.
