Dear Chairman Nichols and Board members:

Shown below is the 1/27 2010 email content received at CGA from CGA member Bill Batson:

Please adopt the proposed rules for 2 engine water well drilling rigs and the extension time for 0 tier engines. Your approval will help general public, the industry, my company, and the economy.

---Thank you for your concern. Bill Batson Batson Drilling Service

Dear Chairman Nichols and Board members:

Subject: Request for approval of the 2 engine water well drilling rig rule changes and for approval of a time extension for the Tier 0 engines.

We do believe in that we all have to do our share to improve our air quality. And I know it is hard to be fair with everyone. But the well drillers need the help for the approval rules for 2 engine water well drilling rigs and extension of time for the tier 0 engines. With the state, county, city, rural, agricultural, in a water emergency, we need to keep this equipment operating until we can get the replacement and or up grades. If not, then not just the well drillers will be hurting and going out of business. Then everyone will be affected.

Please approve the WATER WELL RIG RULE.

Thank you.
