Subject: Emissions Warranty  
Comment:

I ask that you consider the impact of expanding the emissions warranty. In an already sluggish industry that is trying to rebound, we can not afford to lose more business. It is a fact that consumers also choose to do business with there local independent repair facilities. This industry needs the work that is available to us. Losing this battle would be detrimental to the independent repair industry. As a political machine the independent repair industry can be a very strong ally to those that support our concerns. I thank you for your time and consideration.

Sincerely Daniel Goycochea
