

Healthy 880 Communities

Vania Ahmadi & Waafa Aburashed

Healthy 880 Communities is dedicated to addressing the health concerns of communities affected by the bulk of pollution resulting from the heavy use of 880 for freight transport, ~~and~~ polluting industries and ^{local} Air & ship ports.

These communities are disproportionately forced to bear the toxic burdens of polluting industries. The Cap & trade element of the plan will unjustly ignore the communities that desperately need these polluters to be regulated Now.

Unless you value and open the doors for public participation in refining AB32, this plan ~~will~~ ~~will~~ will ignore the needs ~~of~~ ^{of} the most severely impacted communities.

~~Please~~
