

607-17

Mary Nichols, Chair
CA. Air Resources Board
Sacramento, CA 95812

Dear Mary Nichols,

We need a carbon tax now.
We need zero emission cars now.

Everyone will have to be involved, including individuals

I grew up in Southern California in the 1930's. The air was clean, clear & healthy. That was the gold standard. Let's return to it.

Thank you

Sincerely,
George Koch
