Oakland CA

Dear Chairman Nichols,

My name is Chris Mak, and I am a student at Oakland High School. Recently, I have been hearing guest speakers and reading articles about the new truck rule coming up in the next ARB meeting. I am writing this letter to tell you about my point of view in the truck rule.

Although I personally is not greatly affected by the truck pollutions, I have family and friends who are living in or near truck routes. I believe that this new rule would benefit everyone globally. With all new heavy duty trucks, the air will be cleaner and we will have a better future for the next generation. For the money, I think that the government should be the one that is using the money for new trucks. Since most truck drivers are low-income workers who work for the economy.

We can't keep delaying this law from happening because if we keep delaying, our air quality will only get worse with each day. So I am hoping that this law is pass soon and that the government will do all they can to help afford all the changes it must be done.

Chris Mak
