Kerry Le
Oakland Ca

Wednesday, December 10, 2008

Dear Chairman Nichols,

My name is Kerry Le, I am a student at Oakland High School. A good truck rule that reduces diesel pollution is important because the pollution is making the lives of people who have asthma a lot harder. When people are breathing in the diesel pollution in concentrated amounts in the air, it increases their chances of having an asthma attack. It makes people's lives unpredictable, and people do not know if they can live through another day without a major asthma attack. It would be beneficial to everyone if the diesel pollution decreased.

Sincerely,
