Dr. Robert Sawyer, Chair
California Air Resources Board
1001 "I" Street
Sacramento, CA 95812

Dear Dr. Sawyer:

This letter is to urge CARB to do everything possible to promote plug-in automobiles, including hybrids and all-electric plug-ins. My husband and I have one older all-electric and do not plan on buying another car until more are available. They just make sense, in every way. We plug in our car at home where our solar panels supply the electricity. Clean and cheap. There is no reason more of these cars should not be available to the public. For our air and our economy, please do all you are able to facilitate the promotion of plug-in automobiles for public use.

Yours truly,

A handwritten signature in cursive script that reads "Lynda Pash". The signature is written in black ink and is positioned above the printed name.
