The California Air Resources Board (CARB) will hold a second public workgroup teleconference to discuss the development of the Zero- and Near Zero-Emission Freight Facilities Project. The Board has approved the Fiscal Year 2017-18 Funding Plan for Clean Transportation Incentives and allocated $150 million to this project to support bold, transformative emission reduction strategies that can be emulated throughout freight facilities statewide. Funding sources include $100 million from this year’s Low Carbon Transportation allocation (AB 134) plus $50 million from the Trade Corridor Enhancement Account for the Zero-and Near Zero-Emission Warehouse program (SB 132). This workgroup meeting will provide opportunity to participate with CARB staff and other stakeholders interested in the development and implementation of this project.

Limited space will be available for stakeholders who would like to attend in person, and all teleconference participants will have an opportunity to comment.

This second workgroup will be held at the following date and time:

DATE: February 6, 2018
TIME: 9:30 a.m. to 11:30 a.m. (PST)
LOCATION: California Environmental Protection Agency
            Air Resources Board
            Training Room 2
            1001 I Street Sacramento, California 95814

Domestic Call-In Number: 800-369-1790
International Call-In Number: 1-517-308-9458
Passcode: 2959794
If you are unable to participate in this second workgroup teleconference, a final workgroup meeting is being proposed before release of the solicitation.
