

Sam Wade

*Chief, Transportation Fuels Branch, Industrial Strategies Division
California Air Resources Board*

As Chief of the Transportation Fuels Branch at the Air Resources Board, Mr. Wade oversees rule development and implementation of the Low Carbon Fuel Standard. In prior positions with ARB, Mr. Wade contributed to the inception of California's cap-and-trade program, authored portions of the 2008 AB 32 Scoping Plan and served as ARB's deputy director of legislative affairs. His private sector experience includes work in energy policy at a major Californian utility and time with a bioenergy start-up. Sam holds a B.S. in Mechanical Engineering from U.C. Davis, a M.S. in Mechanical Engineering from the University of Hawaii, and an M.P.A in Environmental Science and Policy from Columbia University.
