Mr. Lance Guerrero,
Fleet Sales Representative
BYD Motors Inc.
1800 S. Figueroa Street
Los Angeles, California 90015

Dear Mr. Guerrero,

This letter is in response to the request by Changsha BYD Bus Company Ltd. (BYD) to Air Resources Board (ARB) to approve 2013 model year heavy-duty electric vehicles manufactured by BYD. All vehicles are classified by BYD as model BYD ebus and in the 2013 model year engine family DBYD10000002. This heavy-duty electric vehicle is designed as an electric bus and does not use any on-board fuel-fired heaters or auxiliary motors that would emit any vehicle exhaust emissions or fuel-based evaporative emissions.

ARB is required to certify all on-road vehicles. The certification protocol and test procedures for zero-emission heavy-duty vehicles (HD-ZEV) with gross vehicle weight rating (GVWR) above 14,000 pounds are in the development process. ARB encourages BYD to participate in the regulatory process to formulate the certification protocols and test procedures for HD-ZEV. Prior to the finalization and adoption of HD-ZEV certification protocols and test procedures, heavy-duty electric vehicles may be approved for sale in California based on the manufacturer demonstrating that the vehicles do not emit any vehicle exhaust emissions or fuel-based evaporative emissions.

ARB has determined that the information submitted by BYD demonstrates that the vehicle model listed above does not emit any vehicle exhaust emissions or fuel-based evaporative emissions. Therefore, this letter approves the above listed vehicle model as an electric heavy-duty vehicle that can be sold in California provided all vehicles are produced during 2013 Model Year production period.

This letter hereby supersedes approval letter reference number CIHD-2013-025 dated July 18, 2013.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.
