

## NOTICE OF WORKSHOPS

# Diesel Vehicle Smog Check Inspections

Assembly Bill 1488 (Mendoza, Chapter 739, Statutes of 2007) requires that BAR implement the inspection of diesel-powered vehicles by January 1, 2010. The Smog Check inspection will consist of a visual inspection of emission control components, an OBD test, and a visual smoke inspection.

The Bureau of Automotive Repair (BAR) and the Air Resources Board (ARB) have scheduled a series of workshops to discuss adding a diesel-powered vehicle inspection to the Smog Check program. This inspection will affect 1998 and newer model-year diesel-powered vehicles under 14,000 pounds GVWR. The purpose of these workshops is to provide the opportunity for interested parties to provide input in advance of the formal regulation hearing process.

Please join us at one of the following meetings:

**October 2, 2008**  
**3:30 – 5:30 p.m.**
