SUBJECT: WORKSHOP TO DISCUSS POTENTIAL MODIFICATIONS TO THE
CLEAN FUELS OUTLET REGULATION (REVISED)

Air Resources Board (ARB or the Board) invites you to participate in a public workshop on April 1, 2010 in Sacramento, California, to discuss modifications to the clean fuels outlet regulation (California Code of Regulations Title 13, Chapter 8).

At the March 2008 Board Hearing on the zero emission vehicle (ZEV) regulation, the Board directed staff to evaluate the clean fuels outlet (CFO) regulation to determine if it is an appropriate tool to spur near-term hydrogen infrastructure development. During a public meeting on December 10, 2009, staff presented to the Board conceptual changes to the CFO regulation as one of several complementary policies for the redesigned ZEV regulation. The Board directed staff to "mandate hydrogen through modifications to existing regulations or through a new regulation." During this first workshop, staff will share proposed modifications to the existing CFO regulation and solicit public comments

Details of the workshop are as follows:

Date: April 1, 2010
Time: 9:00 a.m. – 12:00 p.m.
