F. SCOPE OF WORK

The Diesel Filter Replacement Program is administered and implemented through a partnership between CARB, the Grantee (selected via a competitive CARB grant solicitation) and the prospective contractor ESW Cleantech (the manufacturer of the requisite replacement equipment). CARB will set the requirements and develop the eligibility criteria for eligible Diesel Filter Replacement projects to apply for funding through the program. The Grantee is responsible to contract for individual project installations and verify all the project eligibility requirements have been met by the applicants, and to distribute funding after an applicant has submitted the supporting documentation and required items.

The FY 2018-19 Grant Solicitation and the Funding Plan, identify the minimum requirements for implementing the Diesel Filter Replacement Program. The draft Implementation Manual for the FY 2018-19 Diesel Filter Replacement Program (Implementation Manual) provides the necessary definitions, explanations, and processes associated with the minimum requirements. A final Implementation Manual will be developed by the Grantee and CARB, in conjunction with ESW Cleantech and stakeholders, through a public work group process upon execution of the Grant Agreement. The Implementation Manual may be periodically updated by the Grantee in conjunction with CARB as needed to clarify program requirements and improve program effectiveness.
1. **Duties and Requirements**

This section defines the respective duties and requirements of CARB and the Grantee in implementing the Diesel Filter Replacement Program. For Definitions refer to Appendix B, Sample Implementation Manual.

2. **The California Air Resources Board Role**

   CARB is responsible for the following:

   a. Providing technical assistance on interpreting filter data and verifications
   
   b. Clarifying eligibility and guidelines
   
   c. Participating in regular meetings with the Grantee to discuss program refinements and guide program implementation.
   
   d. Participating in coordination meetings with the Grantee and other key staff
   
   e. Reviewing and approving all Grant Disbursement Request Forms (MSCD/ISB-90) and distributing grant funds to the Grantee.
   
   f. Providing program oversight and accountability (in conjunction with the Grantee).
   
   g. Meeting applicable requirements of statutes, applicable State law, the FY 2018-19 Funding Plan, the FY 2018-19 Diesel Filter Replacement Program Grant Solicitation, and this grant agreement with Grantee. The FY 2018-19 Funding Plan for Clean Transportation Incentives is available at: [www.arb.ca.gov/msprog/aqip/aqip.htm](http://www.arb.ca.gov/msprog/aqip/aqip.htm).

3. **The Grantee’s Role**

   a. The Grantee is responsible for implementation of the Diesel Filter Replacement Program approved by the Board as part of the Funding Plan. The Grantee’s responsibilities encompass three phases to ensure the efficient and proper distribution of funds for eligible projects:
   
      i. Program Development - complete a public work group process in coordination with CARB and ESW Cleantech resulting in a final Implementation Manual approved by CARB. Contract with ESW Cleantech to complete installations.
ii. Program Implementation – monitor program progress and receive reimbursement requests/applications from ESW Cleantech. Verify all project eligibility requirements set by CARB have been met and distribute funds.

iii. Program Reporting – track progress and complete final reporting.

The phases shall be completed in a manner directed by CARB and on a timeframe agreed upon by the Grantee and CARB. Table 1 Program Development and Implementation Timeline for FY 2018-19 below outlines key milestones for Diesel Filter Replacement Program development and implementation.

b. The Grantee is responsible to receive applications from ESW Cleantech, verify all the by eligible project requirements are met and distribute funds for completed projects. Depending on the Grantee’s application, CARB anticipates the following general process for each completed project in Figure 1. The Grantee shall collaborate with ESW Cleantech and CARB on a final process.
4. The Grantee’s Project Responsibilities

The Grantee shall work with prospective contractor ESW Cleantech and CARB to:

a. Develop a final Implementation Manual through a public work group process in coordination with CARB and ESW Cleantech.

b. Develop a policies and procedures document and flow chart that describes the Grantee’s administrative action for processing projects. Examples include details on acceptable supporting documentation and protocols for recording case-by-case approvals.
c. Grant permission, in consultation with CARB, to install a new verified PM filter when a substrate replacement is not appropriate based on the pre-inspection check and the data logging report documentation stating the vehicle did not meet the temperature requirement. Testing and analysis documents completed under previous PM filter replacement programs may be considered.

d. Accept application and use the approved criteria and requirements stated in the Implementation Manual to review, verify the project eligibility, and approve or disapprove applications and document the process.

The applicant must submit the supporting documentation to the Grantee for reimbursement. Upon completion and verification of all requirements the Grantee distributes funds to the Applicant. Required documentation will include, at a minimum, the following:

k. Educate applicants/participants on proper use and maintenance of the diesel PM filter in accordance with the Verification Procedure outlined in California Code of Regulations Title 13, Section 2706(v)

6. Eligible Models for Diesel Filter Replacement Project

Vehicles qualified for funding must have had an eligible recalled Cleaire Longmile PM filter installed and may qualify for one of the following projects:

a. Substrate replacement kit installation

b. Verified diesel PM filter replacement

The Implementation Manual will determine final eligibility criteria and priority of potential funding recipients. Eligibility criteria may include, but not be limited to: age of the vehicle, whether the vehicle is subject to any upcoming regulatory requirements, type of operations, whether the vehicle is eligible for substrate replacement or full diesel particulate matter filter replacement, and location or operation in disadvantaged or low income communities. Vehicles eligible for the substrate replacement kit installation shall receive priority due to the greater cost-benefit effectiveness.

Emissions reductions must be surplus to regulatory requirements per AQIP Guidelines. Participating fleets shall be compliant with CARB diesel regulations. Eligible vehicles may not have any DMV VIN Stops or registration holds through CARB Enforcement actions.

G. FISCAL ADMINISTRATION

This section defines the respective roles of CARB and the Grantee in administering the Diesel Filter Replacement Program.
1. **Budget**

   a. The maximum amount of this Grant is up to $3,000,000. The maximum amount of this Grant may be increased further contingent upon receiving additional funds. The Grantee understands and agrees that there is no guarantee that additional funds will become available. Under no circumstance will CARB reimburse the Grantee for more than this amount. A written grant agreement amendment is required whenever there is a change to the amount of this grant.

   b. The budget for this program is shown in Exhibit B, Attachment I. Grant Disbursement Requests for Diesel Filter Replacement funds and Grantee project processing fee (program implementation costs) shall not exceed the grant amount plus matching funds or in-kind services, if any.

   c. Line item shifts are not anticipated under this program. However, shifts of up to ten percent of the grant total may be made over the life of the grant subject to prior written approval from CARB. Line item shifts greater than ten percent require a formal amendment to the grant. Line item shifts may be proposed by either CARB or the Grantee and must not increase or decrease the total grant amount. All line item shifts must be approved in writing by CARB within 10 business days of approval for inclusion in the grant folder. If the grant is formally amended, all line item shifts must be included in the amendment.

2. **Program Funding**

   Draft allowable expenditures for costs associated with the grant are defined below and subject to change pending the public workgroup process.

   a. **Diesel Filter Replacement Funding**

   Payments for a project with a substrate replacement may not exceed the draft Payment Authorization Limit and draft Partial Parts List in Table 2 and Table 3 below. Amounts listed, pricing sheets, and products offered or required may change pending the workgroup process and CARB approval.

Where data logging report documentation finds that the vehicle did not meet the temperature requirement for the LongMile-S upgrade costs will be reimbursed for work that was completed in accordance with the removal of the LongMile filter and the installation of a replacement CARB-verified Level 3 DECS, not to exceed $20,000 without CARB approval.

For affected vehicles that could not accept the LongMile-S upgrade but did not have the LongMile filter with Certified Muffler Modules (CMM)
removed and an appropriate CARB-verified Level 3 filter installed. The Contractor shall document the reason per the Scope of Work in Section F.

b. **Project Processing Fee (Program Implementation Costs)**

Application processing fee shall be used for Diesel Filter Replacement Program administration to process project applications and outreach activities including: The Grantee’s personnel costs, labor expenses and fringe benefits with hourly rates for key job descriptions, operating costs (i.e., rent, supplies, and equipment), indirect costs (e.g., general administrative services, office space, and telephone services), printing, mailing, traveling\(^1\), and other outreach and educational activities expenses, consultant fees (must be pre-approved by CARB), records retention, research and data management, reporting, and other expenses needed to implement Diesel Filter Replacement Program. Program implementation costs should be detailed such that they include all necessary staff and tasks to implement the program.

3. **Advance Payment**

Consistent with the Legislature’s direction to expeditiously disburse grants, CARB in its sole discretion may provide advance payments of grant awards in a timely manner to support program initiation and implementation with a focus on mitigating the constraints of modest reserves and potential cash flow problems.

The Grantee may submit an application for an initial disbursement of up to 10 percent of the total grant amount ($300,000) as seed money to support initial administration of the Diesel Filter Replacement Program and to process Diesel Filter Replacement applications quickly after the Grant Agreement has been signed and upon availability of funds. In the event additional funds become available and in order to ensure adequate project funds are available in the Grantee’s account to cover the cost of projects, the Grantee may request subsequent disbursements by submitting a Status Report and any other information required by CARB documenting the project amounts reserved. CARB may provide subsequent disbursements to cover the cost for the amount of projects reserved plus any additional funds necessary to ensure timely payment of projects.

Recognizing that appropriate safeguards are needed to ensure grant monies are used responsibly, CARB has developed the grant conditions described

---

\(^1\) CARB will only reimburse travel expenses and per diem rates that are set by California Department of Human Resources (CalHR). The Grantee will be responsible for travel expenses and per diem rates that exceed CalHR rates.
below to establish control procedures for advance payments. CARB may provide advance payments to grantees of a grant program or project, in accordance with Health and Safety Code Section 39603.1, if CARB determines all of the following:

a. The advance payments are necessary to meet the purposes of the grant project.

b. The use of the advance funds is adequately regulated by grant or budgetary controls.

c. The request for application or the request for proposals contains the terms and conditions under which an advance payment may be received consistent with this section.

d. The Grantee is either a small district or the Grantee meets all of the following criteria:

   i. Has no outstanding financial audit findings related to any of the moneys eligible for advance payment and is in good standing with the Franchise Tax Board and Internal Revenue Service.
   
   ii. Agrees to revert all unused moneys to CARB if they are not liquidated within the timeline specified in the grant agreement.
   
   iii. Submits a spending plan to CARB for review prior to receiving the advance payment.
   
   iv. The spending plan shall include project schedules, timelines, milestones, and the Grantee’s fund balance for all state grant programs.
   
   v. CARB shall consider the available fund balance when determining the amount of the advance payment.
   
   vi. Reports to CARB any material changes to the spending plan within 30 days.
   
   vii. Agrees to not provide advance payment to any other entity.

e. In the event of the nonperformance of the Grantee, CARB shall require the full recovery of the unspent moneys. A Grantee shall provide a money transfer confirmation within 45 days upon the receipt of a notice from CARB.

f. The Grantee must complete and submit to CARB for review and approval, an Advance Payment Request Form, along with each grant disbursement.
that is requesting advance payment. The Advance Payment Request Form shall be provided by CARB to the Grantee after the grant execution.

g. CARB may provide an advance of the direct project costs of the grant, if the program has moderate reserves and potential cash flow issues. Advance payments will not exceed the Grantee’s interim cash needs.

h. The grantee assumes legal and financial risk of the advance payment.

i. Grantee shall place funds advanced under this section in an interest-bearing account. Grantee shall track interest accrued on the advance payment. Interest earned on the advance payment shall only be used for eligible grant-related expenses as outlined in the Grant Provisions, Exhibit A or will be returned to CARB.

j. Grantee shall report to CARB the value of any unused balance of the advance payment and interest earned and submit quarterly fiscal accounting reports consistent with reporting requirements of this grant agreement (see Section I).

k. Grantee shall remit to CARB any unused portion of the advance payment and interest earned within 90 days following the end date of this Grant Agreement term but no later than April 30, 2021.

4. Grant Disbursements

a. Requests for payment shall be made with the Grant Disbursement Request Form (MSCD/ISB-90) and conform to the instructions identified in Sections G and I of this grant agreement. Grant payments shall be made only for reasonable costs incurred by the Grantee and only when the Grantee has submitted a Grant Disbursement Request Form, milestones stipulated in Exhibit B, Attachment II and III, the requirements specified herein, including Section F, Section G, Section H and Section I of this grant agreement have been accomplished, documentation of accomplishment has been provided to CARB in the form of the Status Report, and any associated deliverables (if applicable) have been provided to CARB. CARB will have sole discretion to accelerate the timeline for allowable disbursements of funds identified in Exhibit B, Attachment II (with the exception of the final disbursement of funds), necessary to assure the goals of the program are met.

b. Grant payments are subject to CARB’s approval of Status Reports and any accompanying deliverables (see Sections F, Section G, Section H and Section I of this grant agreement). A payment will not be made if the
CARB Project Liaison deems that a milestone has not been accomplished or documented, that a deliverable meeting specifications has not been provided, that claimed expenses are not documented, not valid per the budget, or not reasonable, that the Grantee has not met other terms of the grant.

The Chief of the Mobile Source Control Division or designee of CARB may review the CARB Project Liaison's approval or disapproval of a Grant Disbursement Request. c. The Grantee shall mail completed and signed Grant Disbursement Requests to the CARB Project Liaison.

d. CARB will withhold payment of up to 10 percent of the grant funds until completion of the Final Report and intellectual property has been relinquished to CARB in accordance with Sections I and L of these provisions, CARB has received and approved the Grantee's mechanism for receiving annual activity reports, and submission of the Final Report to CARB by the Grantee. It is the Grantee's responsibility to submit a Grant Disbursement Request for this final disbursement of funds.

e. CARB shall disburse funds in accordance with the California Prompt Payment Act, Government Code, Section 927, et seq.

f. The Grantee will pay out CARB funds to other sub-grantees or subcontractors on a reimbursement basis only.

5. Suspension of Payments and Grant Termination

a. CARB reserves the right to issue a grant suspension order in the event that a dispute should arise. The grant suspension order will be in effect until the dispute has been resolved or the grant has been terminated. If the Grantee chooses to continue work on the project after receiving a grant suspension order, the Grantee will not be reimbursed for any expenditure incurred during the suspension in the event CARB terminates the grant. If CARB rescinds the suspension order and does not terminate the grant, CARB will reimburse the Grantee for any expenses incurred during the suspension that are reimbursable in accordance with the terms of the grant.
b. CARB reserves the right to terminate this Grant upon 30 days' written notice to the Grantee. In case of early termination, the Grantee will submit a Grant Disbursement Request, a Status Report covering activities up to, and including, the termination date and following the requirements specified herein and in Section I of these provisions. Upon receipt of the Grant Disbursement Request Form, Status Report, and all intellectual property has been relinquished to CARB, a final payment will be made to the Grantee. This payment shall be for all CARB-approved, actually incurred costs that in the opinion of CARB are justified.

c. CARB reserves the right to immediately terminate this Grant in accordance with Section N (23).

d. Upon termination, grants funds must be immediately returned to CARB.

6. Contingency Provision

In the event this grant is terminated for any reason, the CARB Executive Officer or designee reserves the right in his or her sole discretion to award a grant to the next highest scored applicant and if an agreement cannot be reached, to the next applicant(s) until an agreement is reached.
