MAIL-OUT MSO # 2003-02

TO: ALL PASSENGER CAR MANUFACTURERS
ALL LIGHT-DUTY TRUCK MANUFACTURERS
ALL MEDIUM-DUTY VEHICLE MANUFACTURERS
ALL HEAVY-DUTY ENGINE AND VEHICLE MANUFACTURERS
ALL ON-ROAD MOTORCYCLE MANUFACTURERS
ALL LICENSED VEHICLE EMISSION TEST LABORATORIES

SUBJECT: MANUFACTURERS' CALENDAR-YEAR 2002 (CY2002) CALIFORNIA
PRODUCTION NUMBERS FOR ASSESSING ANNUAL CERTIFICATION
FEE FOR FISCAL YEAR 2003-2004 (FY03/04)

Annual fees for the certification of on-road motor vehicles and engines produced for sale in California are authorized under Health and Safety Code Section 43019 and are required under Title 13, California Code of Regulations (13 CCR), Sections 1990-1994. Under the provisions in 13 CCR Section 1993 (f)(2), manufacturers whose production numbers are not reported in quarterly assembly-line reports are required to submit a summary of their previous year's production of California-certified vehicles and engines by May 1, for use in the calculation of annual certification fees. Due to the late issuance of this Mail-Out, it is requested that those affected manufacturers submit the required production figures by May 31, 2003.

This mail-out provides the production information that the Air Resources Board (ARB) currently has on record for each affected manufacturer and emission test laboratory for CY2002. For FY03/04, the ARB will calculate a per-vehicle or per-engine certification fee to be assessed equally on all certified on-road vehicles and engines produced for sale in California during the CY2002.

The categories of on-road engines and vehicles that are subject to certification fees for FY03/04 are listed below. A production table for each of the four categories is included in the attachments.

- Table 1: passenger cars, light-duty trucks, medium-duty vehicles, and federally-certified AB 965 vehicles.
- Table 2: heavy-duty on-road vehicles and engines.
- Table 3: on-road motorcycles.
- Table 4: used direct import modifier-certified vehicles.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.

California Environmental Protection Agency

Printed on Recycled Paper

The total fee assessed for each manufacturer or laboratory for FY 03/04 will be based on the production numbers listed in the attached tables unless the ARB is notified that corrections are needed. Manufacturers may adjust production numbers reported quarterly to account for those vehicles or engines that were actually sold outside California. Changes to any of the totals listed in the attachments must be provided in writing and include the corrected production numbers identified by model year and vehicle class. Production numbers by engine family or test group are not required at this time but should be made available upon request.

All manufacturer corrections to the CY2002 production listed in the attached tables must be sent to:

Allen Lyons, Chief
Mobile Source Operations Division
Air Resources Board
9480 Telstar Ave., Suite 4
El Monte, CA 91731-2988

The corrections must be received by May 31, 2003. No additional changes to CY2002 production numbers will be allowed after this date because of the administrative burden created when changes are made after the billing process has been completed. A number of light-duty vehicle, on-road motorcycle, heavy-duty vehicle and engine manufacturers did not submit their final CY2002 production as required. Unless final production information is received from these manufacturers by May 31, 2003, the CY2002 estimated sales numbers shown in the tables will be used for calculating the certification fee assessments for these manufacturers.

The FY03/04 fee assessment notices will be mailed to each manufacturer and laboratory before June 30, 2003. Manufacturer payment must be made within 30 days after receipt of the notice unless arrangements are made with the ARB Administrative Services Division for quarterly payments.

If you have questions regarding the above, please contact Mr. Shewen Chen, Air Resources Engineer, On-Road Certification/Audit Section (ONRCAS), at (626) 575-6661 or e-mail at schen@arb.ca.gov. If you have specific questions or comments about the production numbers in the attached tables, please contact your assigned ONRCAS representative.

Sincerely,

Allen Lyons, Chief

Mobile Source Operations Division
