Mail-Out #ECARS 14-01

TO: All Interested Parties

SUBJECT: SUBMITTAL OF TECHNICAL SERVICE BULLETINS, PRE-INSTALLATION
COMPATIBILITY ASSESSMENT CRITERIA, AND OTHER SERVICE
RELATED INFORMATION – EFFECTIVE OCTOBER 1, 2013

On August 23, 2012, the Air Resources Board (ARB) approved amendments to the *Verification Procedure, Warranty, and In-Use Compliance Requirements for In-Use Strategies to Control Emissions from Diesel Engines* (the Procedure) in Title 13, California Code of Regulations, Sections 2700 through 2711, which include additional requirements for the diesel emission control strategy (DECS) manufacturers and authorized installers to submit technical service bulletins, pre-installation compatibility assessment criteria, other service related information, and any other documentation that affect the proper operation and maintenance of the diesel emission control strategy concurrently to ARB.

On October 1, 2013, amendments to the Procedure became effective requiring this DECS service related information to be submitted concurrently to ARB. The purpose of this mail-out is to provide guidance to DECS manufacturers for the submittal of this service information. This mail-out does not contain all amendments approved on August 23, 2012. All of the approved amendments can be found at <http://www.arb.ca.gov/regact/2012/verdev2012/verdev2012.htm>.

Technical service bulletins, pre-installation compatibility assessment criteria and other service related information

A new Section 2706(x), Other Requirements, states that technical service bulletins, pre-installation compatibility assessment criteria, other service related information, and any other documentation that affect the proper operation and maintenance of the diesel emission control strategy provided to end-users, authorized installers, or distributors must be submitted concurrently to ARB.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.

California Environmental Protection Agency

Guidance for Submittal of Documents

The service related information may be made available to ARB in English over the Internet or as provided in Section 2702(c) of the amended Procedures. All correspondence and reports, with the exception of applications based on the use of fuel additives or alternative diesel fuels, locomotive applications, stationary applications, transport refrigeration units, rubber-tired gantry cranes, and marine applications, must be submitted in writing to:

CHIEF, IN-USE VEHICLE PROGRAMS BRANCH
(Note: the Procedure will be updated soon to reflect recent Branch name change)
AIR RESOURCES BOARD
9480 TELSTAR AVENUE, SUITE 4
EL MONTE, CA 91731
