Mr. Larry Green
Air Pollution Control Officer
Sacramento Metropolitan Air Quality Management District
777 12th Street, 3rd Floor
Sacramento, California 95814

Dear Mr. Green:

As you know, the Air Resources Board recently conducted a review of your Carl Moyer Program as a part of our program oversight responsibility per state law [Health and Safety Code section 44291(d)]. We appreciate the professionalism and cooperation of your staff during the audit.

Our report is enclosed. Generally speaking, we found that the District operates an excellent program. The District efficiently and effectively obtains surplus emission reductions through the purchase of cleaner diesel engines for construction equipment and agricultural irrigation pumps. Our four critical findings are limited to administrative issues which the District has agreed to rectify. Per ARB's audit guidelines, the District has 30 days (until September 23, 2006) to submit a written plan of action to address the required actions in the audit report. Also per the guidelines, if the District does not act its Carl Moyer Program will be deemed "at-risk" and additional oversight from ARB may be required. Our audit report and your written responses are public and will be included in the annual Carl Moyer Program update to our governing board in January 2007. We encourage the District to make this information locally available as well.

If you have any questions about the audit, please contact me at (916) 445-4383 or contact Mr. Robert Cross, Chief, Mobile Source Control Division, at (626) 575-6807.

Sincerely,

/s/

Catherine Witherspoon
Executive Officer

Enclosure

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.
