Dear Mr. Goldstene:

The Shasta County Air Quality Management District staff and I would like to thank your staff for the comprehensive program and fiscal review they conducted of our Carl Moyer Memorial Air Quality Standards Attainment Program and Lower-Emission School Bus Program. The District operates both of these programs with the overriding goal of reducing emissions and improving air quality.

Please be assured that the findings described in the Program and Fiscal Review Report have been addressed. Contract language, reporting, and project file documentation have been improved as a result of this review. We will continue to improve our administration of these programs as they are carried out by the District into the future.

Your staff was very knowledgeable and performed an efficient and thorough review of our grant programs. If you or your staff have any further concerns or comments, please call either myself or Ross Bell at (530) 225-5674.

Sincerely,

Russ Mull  
Air Pollution Control Officer
