

FREQUENTLY ASKED QUESTIONS

On-Road Voucher Incentive Program

Helping California's fleet owners reduce pollution

The on-road Voucher Incentive Program (VIP) provides a streamlined approach to replace older, high-polluting heavy-duty vehicles with cleaner-than-required vehicles providing early or extra emission reductions. Funds for VIP projects are used to reduce some of the costs associated with replacing a vehicle.

How much VIP funding can a truck owner receive?

Voucher amounts range from \$10,000 to \$60,000 and depend on factors such as the miles traveled per year, the weight class of the old vehicle, and whether the replacement vehicle is new or used. Funding also depends on the future compliance date to replace the vehicle. The fleet must currently be compliant with all applicable federal, state, and local air quality rules and regulations.

Who can take advantage of VIP?

Eligible applicants must meet all of the following criteria:

- The fleet is currently compliant with all applicable federal, state, and local air quality rules and regulations;
- Fleets of ten or fewer on-road heavy-duty diesel or alternative fuel vehicles;
- Own a truck equipped with a 2009 or older model year diesel or alternative fuel engine;
- Truck must be owned and operated in California for each of the previous two years (partial registration for three to six continuous months per year may still be eligible);
- Truck must be registered with a gross vehicle weight rating greater than 14,000 pounds; and
- At least 75 percent of the miles traveled or fuel consumed over the last two years must have been in California.
- Note: Some local requirements may apply.

When is VIP funding available?

The Moyer Program provides about \$60 million for projects each year statewide. VIP is funded with Carl Moyer program funds at local air district discretion. Not all air districts implement VIP and those that do may open and close their programs at different times of the year. Contact a participating air district for more details.

Where can someone apply for VIP funding?

Contact a [Participating Dealership](#) to see if funding is available or if local requirements apply. The following districts participate in VIP during certain periods throughout the year. Please visit each district's website for the participation status:

- [San Diego County Air Pollution Control District VIP](#)
- [South Coast Air Quality Management District VIP](#)
- [Bay Area Air Quality Management District VIP](#)
- [North Coast Unified Air Quality Management District VIP](#)
- [Siskiyou Air Pollution Control District VIP](#)

For more information email the Air Resources Board Diesel Hotline at 866diesel@arb.ca.gov or call 866-6DIESEL or (866) 634-3735.

Note: Truck owners may be eligible to combine VIP funding with ARB's loan guarantee program. For more information, go to www.arb.ca.gov/msprog/truckstop/funding/loans_fa.htm.

What replacement vehicles are eligible for VIP?

Eligible replacement vehicles may be either of the following and must be purchased by a participating dealership:

- New vehicle with a California certified engine (0.20 g/bhp hr NOx and 0.01 g/bhp hr PM or cleaner)
- Used 2013 or newer engine model year vehicle with a California certified engine (0.20 g/ bhp hr NOx and 0.01 g/bhp hr PM or cleaner)

What is the process for applying for funds?

- The buyer fills out and submits a completed application and required documentation at a participating dealership. Visit <https://www.arb.ca.gov/msprog/moyer/voucher/dealerlist/dealerlist.htm> for a list of dealerships.
- The dealership forwards the application to a participating air district.
- The air district evaluates and approves a completed voucher application within fifteen business days.
- Note: The owner is responsible for the cost of the vehicle minus the voucher award amount.

Are there any other participant requirements?

Yes. The participant must agree to the following terms:

- Operate the vehicle at least 75% of the time within California for three years;
- Allow the Air Resources Board to verify registration and inspect the vehicle for three years;
- Return annual usage reports as requested by the air district for three years.

What happens to the old vehicle in a replacement project?

The old vehicle is destroyed.
