Arnold Schwarzenegger  
Governor

March 15, 2006

Dear Sir or Madam:

The California Air Resources Board (ARB or Board) staff invites you to participate in a public workshop to discuss a new rulemaking effort to set evaporative emission standards for spark ignited marine engines with permanently mounted fuel tanks.

The workshop will be held at the date, time, and location listed below:

Date: April 12, 2006  
Time: 10:00 am to 12:00 pm  
Place: Air Resources Board  
MLD North and South Conference Room  
1927 13<sup>th</sup> Street  
Sacramento, California 95814

It is estimated that spark ignited marine engines emit over 22 tons per day of unburned hydrocarbons into California's atmosphere. Adapting proven on-road vehicle evaporative emissions technologies to this category of equipment is expected to significantly reduce emissions. We welcome your participation as we initiate our rulemaking effort.

The meeting location is accessible to persons with disabilities. If you have special accommodation or language needs, please contact Elizabeth Mongar at (916) 327-0900 as soon as possible. TTY/TDD Speech-to-Speech users may dial 7-1-1 for the California Relay Service.

If you have general questions regarding the workshop, or you cannot attend and would like to provide comments or participate by teleconference, please contact Mr. Donald Ridgley, Air Pollution Specialist at (916) 322-8913 or via email at [dridgley@arb.ca.gov](mailto:dridgley@arb.ca.gov).

Sincerely,

Manjit Ahuja, Chief  
Stationary Source Testing Branch  
Monitoring and Laboratory Division

*The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.*
