AIR RESOURCES BOARD

Small Off-Road Engine Evaporative Emission System Components

Q-11-009  
Dutchland Plastics Corporation  
Fuel Tank

WHEREAS, Pursuant to California Health and Safety Code, sections 39600, 39601, and 43013, the California Air Resources Board (ARB) has established a certification process for evaporative emission system components designed to control gasoline emissions from small off-road engines, as described in California Code of Regulations (CCR), title 13, section 2767.1;

WHEREAS, Pursuant to California Health and Safety Code, section 43013, ARB has established criteria and test procedures for determining the compliance of evaporative emission system components with the design requirements in CCR, title 13, section 2754;

WHEREAS, Pursuant to CCR, title 13, section 2767.1, ARB Executive Officer may issue an Executive Order if he determines that the small off-road engine evaporative emission system component conforms to the applicable performance requirements set forth in CCR, title 13, section 2754; and

WHEREAS, Pursuant to Health and Safety Code, sections 39515 and 39516, ARB Executive Officer issued Executive Order G-05-008 delegating to the Chief of ARB Monitoring and Laboratory Division (MLD) the authority to certify small off-road engine evaporative system components.

NOW, THEREFORE, I, Alberto Ayala, Chief of MLD, find that the Dutchland Plastics Corporation Wacker fuel tanks conform with the permeation performance requirements set forth in CCR, title 13, section 2754, for fuel tanks used on model year 2007 through model year 2011 Class I engines, and for fuel tanks used on model year 2008 through model year 2012 Class II engines, when tested at a constant temperature of 40 °C pursuant to alternative test procedure ATP-10-001 using an approved test fuel of CE10. This Executive Order cannot be used to certify model year 2012 and later Class I engines or model year 2013 and later Class II engines.

IT IS ORDERED AND RESOLVED that all Dutchland Plastics Corporation Wacker fuel tanks with volume/internal surface area ratios equal to or greater than the ratio listed in Table 1 are certified for use in small off-road equipment.

IT IS FURTHER ORDERED that Dutchland Plastics Corporation shall provide a warranty to equipment manufacturers purchasing the Dutchland Plastics Corporation Wacker fuel tanks. The warranty must conform to the requirements of CCR, title 13, section 2760.

Table 1  
Specification for Dutchland Plastics Corporation Wacker Fuel Tanks

| Minimum Volume/Internal Surface Area<br>(liters/m <sup>2</sup> ) |
| 28.40  |

IT IS FURTHER ORDERED that the certified Dutchland Plastics Corporation Wacker fuel tanks shall be installed in accordance with the manufacturer's installation and use instructions. A copy of this Executive Order and fuel tank installation and use instructions shall be provided to manufacturers purchasing the Dutchland Plastics Corporation Wacker fuel tanks for installation on small off-road engines and equipment introduced into commerce in California.

IT IS FURTHER ORDERED that fuel tanks listed in Table 1, shall be clearly identified by a permanent identification that allows ARB to identify manufacturer's name, executive order number, and model number.

IT IS FURTHER ORDERED that any alteration to the certified fuel tank family hereby is prohibited. Any alteration or modification of the designs approved by this Executive Order will require the manufacturer to apply for a new Executive Order.

IT IS FURTHER ORDERED that the Dutchland Plastics Corporation Wacker fuel tanks shall be compatible with fuels in common use in California at the time of certification and any modifications to comply with future California fuel requirements shall be approved in writing by the Executive Officer or Executive Officer's delegate.

IT IS FURTHER ORDERED that the component certification of the Dutchland Plastics Corporation Wacker fuel tanks can be referenced in certification applications for small off-road engines and equipment that use small off-road engines unless the Executive Officer finds that the Dutchland Plastics Corporation Wacker fuel tanks no longer meet the performance requirements set forth in CCR, title 13, section 2754, when tested pursuant to CCR, title 13, section 2765.

Executed at Sacramento, California, this 21<sup>st</sup> day of April 2011.
