SUBJECT: PUBLIC WORKSHOP TO DISCUSS A PROPOSED REGULATION FOR
IN-USE ON-ROAD HEAVY-DUTY DIESEL-FUELED VEHICLES

The Air Resources Board (ARB or Board) staff invites you to participate in our next set of public workshops to discuss a proposed regulation to reduce emissions from existing diesel-fueled trucks, buses, and other vehicles operating in the State. As currently proposed, the regulation would apply to nearly all in-use on-road heavy-duty diesel vehicles regardless of where the vehicle is registered. This is our fourth set of workshops since the initial regulatory concept was proposed during public workshops in April 2007.

At the workshops, ARB staff plan to discuss revised proposed regulatory language, preliminary results from vehicle surveys, economic impacts, and additional outreach efforts. Day and evening workshops are planned. The workshops held during the day will be held in Sacramento, Fresno, El Monte, San Diego, Redding and Berkeley. Workshops will also be held in the evening in Fresno, Riverside, Redding, and Berkeley. The dates and times are listed below.
