Pursuant to the authority vested in the Air Resources Board by Health and Safety Code (HSC), Division 26, Part 5, Chapter 2; and pursuant to the authority vested in the undersigned by HSC Sections 39515 and 39516 and Executive Order G-14-012;

IT IS ORDERED AND RESOLVED: The following exhaust and evaporative emission control systems produced by the manufacturer are certified as described below. Production vehicles shall be in all material respects the same as those for which certification is granted.

See the Attachment for Vehicle Models, Evaporative Family, Engine Displacement, Emission Control Systems, Phase-In Standards, OBD Compliance, Emission Standards and Certification Levels, and Abbreviations.
BE IT FURTHER RESOLVED:
The exhaust and evaporative emission standards and the certification emission levels for the listed vehicles are as listed on the Attachment. Compliance with the 50° Fahrenheit testing requirement may have been met based on the manufacturer's submitted compliance plan in lieu of testing. Any debit in the manufacturer's NMOG+NOx and greenhouse gas Fleet Average (PC or LDT or MDVP) or "Vehicle Equivalent Credit" (MDV) compliance plan shall be equalized as required.

BE IT FURTHER RESOLVED:
For the listed vehicle models, the manufacturer has attested to compliance with Title 13, California Code of Regulations, (13 CCR) Sections 1965 [emission control labels], 1968.2 [on-board diagnostic, full or partial compliance], 2035 et seq. [emission control warranty], 2235 [fuel tank fill pipes and openings] (gasoline and alcohol fueled vehicles only), and "High-Altitude Requirements" and "Inspection and Maintenance Emission Standards" (California 2015 and Subsequent Model Criteria Pollutant Exhaust Emission Standards and Test Procedures and 2017 and Subsequent Model Greenhouse Gas Exhaust Emission Standards and Test Procedures for PC, LDT and MDV).

BE IT FURTHER RESOLVED:
The listed vehicle models are conditionally certified in accordance with 13 CCR Section 1968.2(k) (deficiency and fines provisions for certification of malfunction and diagnostic system) because the on-board diagnostic II (OBD) system of the listed vehicle models produced on or before October 30, 2016 have been determined to have five deficiencies. The listed vehicle models are approved subject to the manufacturer paying a fine of $100 per vehicle for the third through fifth deficiencies for vehicles in the listed test group that are produced and delivered for sale in California. On a quarterly basis, the manufacturer shall submit to the Air Resources Board reports of the number of vehicles produced and delivered for sale in California and pay the full fine owed for that quarter pursuant to this conditional certification. Payment shall be made payable to the State Treasurer for deposit in the Air Pollution Control Fund no later than thirty (30) days after the end of each calendar quarter during the 2017 model-year production period. Failure to pay the quarterly fine, in full, in the time provided, may be cause for the Executive Officer to rescind this conditional certification, effective from the start of the quarter in question, in which case all vehicles covered under this conditional certification for that quarter and all future quarters would be deemed uncertified and subject to a civil penalty of up to $37,500 per vehicle pursuant to HSC Section 43154.

Vehicles certified under this Executive Order shall conform to all applicable California emission regulations.
This Executive Order hereby cancels and supersedes Executive Order A-015-0734 dated April 27, 2016.

The Bureau of Automotive Repair will be notified by copy of this Executive Order.

Executed at El Monte, California on this 26th day of October 2017.

Annette Hebert, Chief
Emissions Compliance, Automotive Regulations and Science Division

  - STD: Standard
  - FEL: Family Emission Limit
  - GVWR: Gross Vehicle Weight Rating
  - LVW: Loaded Vehicle Weight
  - ALVW: Adjusted LVW
  - LEV: Low Emission Vehicle
  - ULEV: Ultra LEV
  - SULEV: Super ULEV
  - ZEV: Zero-Emission Vehicle
  - EZEV: Transitional ZEV
  - TWC/OC: 3-Way/Oxidizing Catalyst
  - ADSTWC: Adsorbing TWC
  - HAC: HC Adsorbing Catalyst
  - WU: Warm-up Catalyst
  - NAC: NOx Adsorption Catalyst
  - SCR-U: Selective Catalytic Reduction-Urea
  - SCR-N: Selective Catalytic Reduction-Ammonia
  - NH3OC: Ammonia Oxidation Catalyst
  - CTOX/PTOX: Continuous/Periodic Trap Oxidizer
  - DPF: Diesel Particulate Filter
  - HO2S/O2S: Heated/Oxygen Sensor
  - WR-HO2S: Wide Range/Linear/Heated Air-Fuel Ratio Sensor
  - NOx: NOx Sensor
  - PMS: PM Sensor
  - RDQS: Reductant Quality Sensor
  - NH3S: Ammonia Sensor
  - EGR: Exhaust Gas Recirculation
  - EGRC: EGR Cooler
  - AIR/AIRE: Secondary Air Injection (Beltdriven)/(Electric driven)
  - PAIR: Pulsed Air
  - SFI/MFI: Sequential/Multiport Fuel Injection
  - DFI/IFI: Direct/Indirect Fuel Injection
  - TC/SC: Turbo/Supercharger
  - CAC: Charge Air Cooler
  - FFH: Fuel Fired Heater
  - E10: E85 (10% Ethanol/90% Gasoline)
  - F/P/S: Full/Partial/Partial with Fines On-Board Diagnostic
  - DOR: Direct Ozone Reducing
  - HCT: Hydrocarbon Trap
  - BCAN: Bleed Carbon Canister
  - CNG/LNG: Compressed/Liquefied Natural Gas
  - LPG: Liquefied Petroleum Gas
  - E85: 85% Ethanol/15% Gasoline
  - A: Automatic (with Lockup)
  - SA: Semi-Automatic Transmission
  - CV: Continuously Variable Transmission
  - SCV: Selectable Continuously Variable Transmission
  - AM: Automated Manual Transmission
  - AMS: Automated Manual-Selectable Transmission
  - DT: Other Transmission
