

## DRAYAGE TRUCK EXEMPTION APPLICATION FORM

The California Air Resources Board's In-Use On-Road Diesel-Fueled Heavy-Duty Drayage Trucks Regulation (Cal. Code Regs., title 13, section 2027) provides a process to exempt certain drayage trucks from the emission reduction requirements. All exempted trucks must meet one or more of the exemption criteria and submit the required documentation in section (D) and complete sections (A-E) of this form to be considered for an exemption. For a list and examples of vehicles exempt from the drayage truck regulation go to [www.arb.ca.gov/msprog/onroad/porttruck/truckexemptionguidelines.pdf](http://www.arb.ca.gov/msprog/onroad/porttruck/truckexemptionguidelines.pdf) or at the drayage truck website [www.arb.ca.gov/drayagetruck](http://www.arb.ca.gov/drayagetruck). Drayage regulatory exemptions apply to the drayage truck regulation only. Trucks that transport containers to or from California's ports or intermodal rail facilities are not eligible for this exemption.

This information, some of which may be confidential, will be handled in accordance with the disclosure of public records provisions of title 17 California Code of Regulations, sections 91000 to 91022 and the California Public Records Act (Government Code section 6250, et seq.).
