DRAYAGE TRUCK REGULATION

CLASS 8 TRUCKS

Important Reminder for Drayage (Port) Truck Owners

Class 8 drayage trucks* with 2005-2006 model year engines need to be upgraded or engines replaced by 12/31/2012 to provide critical benefits for air quality and public health.

Available Options

Long Term – compliant for a minimum 10 years

Replace the truck or engine with a:

- 2007-09 model year engine for compliance until 12/31/2022. Starting 1/1/2023, the truck or engine must be upgraded with a 2010 model year or newer engine or,
- 2010 model year or newer engine; truck will be fully compliant.

Short Term – compliant for one year

- Install a level 3 ARB-approved diesel particulate filter for compliance through 12/31/2013. Starting 1/1/2014, the truck or engine must be upgraded again with a 2007 or newer model year engine to continue drayage operation.

Note: The ports of Los Angeles and Long Beach require a 2007 or newer model year engine.

**Trucks with a manufacturer's gross vehicle weight rating of 33,001 lbs. or more that haul port or rail yard cargo.*
