

How to Look Up DOORS Public Information

The public may access DOORS information about a vehicle with an equipment identification number (EIN) or check if a company has received their annual Certificate of Reported Compliance. This user guide provides an easy step-by-step guide to finding this information.

DOORS Public Information

From the In-Use Off-Road Diesel-Fueled Fleets Regulation homepage (<https://www.arb.ca.gov/ordiesel>), visit “Program Links” in the grey area on the left hand side. The program links are in alphabetical order, click on “DOORS Public Information”.

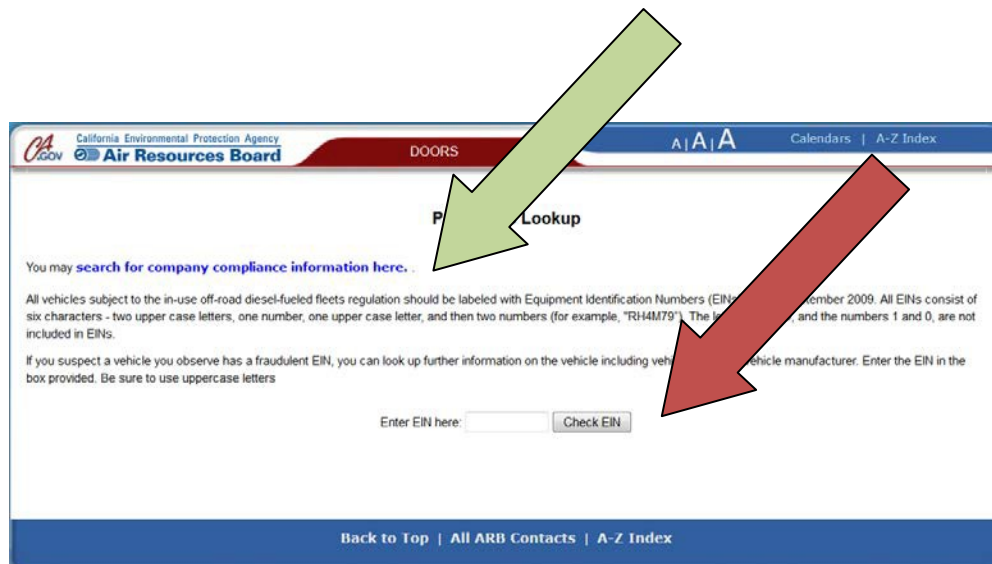

The screenshot shows the California Air Resources Board (ARB) website. The main heading is "In-Use Off-Road Diesel-Fueled Fleets Regulation". A large orange arrow points from the "DOORS Public Information" link in the left sidebar to the "DOORS Reporting Forms" button in the main content area. Other buttons include "Off-Road Diesel Knowledge Center", "Exhaust Retrofits", "Free Training Seminars", "Regulation Language", and "Retrofit Safety & Exemptions".

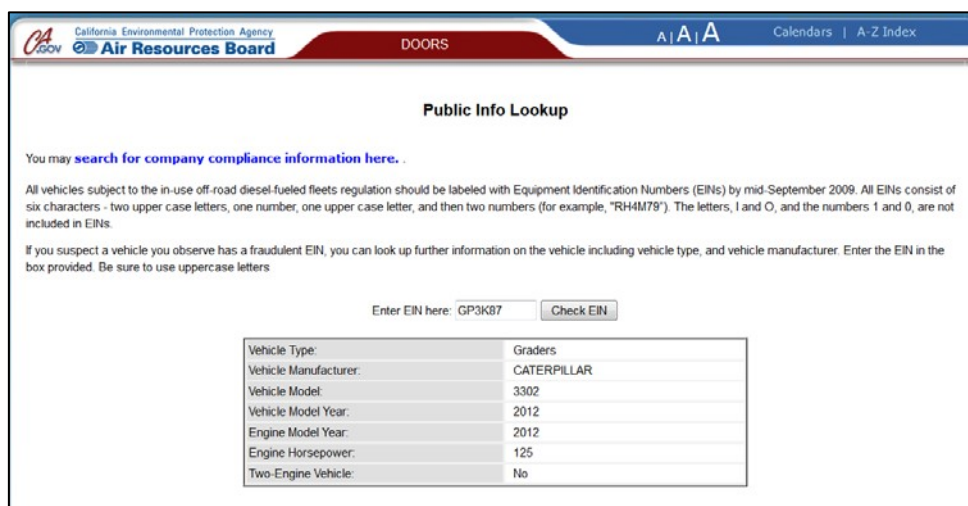

Once clicked, a new webpage opens with two options:

1. Enter an EIN , or
2. Search for company compliance information.

While this document is intended to assist fleets with their compliance efforts, it does not alter or modify the terms of any ARB regulation, is not a substitute for reading the regulation, nor does it constitute legal advice. It is the sole responsibility of fleets to ensure compliance with the In-Use Off-Road Diesel-Fueled Fleets Regulation.

1. You may enter an EIN to access the following information specific to that vehicle: vehicle type, manufacture, model, model year, and engine model year, horsepower, and if the vehicle is a two engine vehicle or not.

- Another option is to click on the “view a list of companies that have a current ARB compliance certificate here”. Here a DOORS ID or company name can be used to access compliance validation.
