

## How to Update Fleet Information after Receiving EINs

Once your vehicles receive their Equipment Identification Numbers (EINs) after initial reporting, you may need to add to or edit your information. For example, you may need to change data for a vehicle already reported, or you may need to add a vehicle to your fleet. After the initial EINs are assigned, you do not need to resubmit any information, nor do you need to request review. When a fleet adds a new vehicle, DOORS automatically issues an EIN. Edits to vehicle or engine information take effect immediately.

### Steps to Adding/Editing Vehicle or Engine Information Using Online Screens

This guide provides detailed instructions on how to complete the following steps to add and edit information after your initial reporting.

- A. Logging into DOORS Account
- B. Locating the online forms for entering data
- C. Editing and saving information into online forms
- D. Checking for errors

#### A. Logging into DOORS Account

- Go to [https://ssl.arb.ca.gov/ssldoors/doors\\_reporting/doors\\_login.html](https://ssl.arb.ca.gov/ssldoors/doors_reporting/doors_login.html).
- Use your User Name and Password to log into your account.
- If you have forgotten how to access your account information, please review the DOORS Guide to Reporting Online found at <http://www.arb.ca.gov/msprog/ordiesel/knowcenter.htm>, or contact the DOORS hotline at 1(877) 59DOORS (1-877-593-6677) or by email at [doors@arb.ca.gov](mailto:doors@arb.ca.gov) for assistance.

#### B. Locating the online forms for entering data

- After you have logged into DOORS, you will select the fleet that you would like to work with by clicking on its name. Fleets that have already received their EINs will appear in a green box in the first column, and fleets that still need to receive their EINs will appear in yellow.
- Once the correct fleet has been selected, you will see multiple options for working with this fleet, in the center column.
- You will need to click on the [\[Edit Fleet Information\]](#) button.

- This will take you to the “Owner Information” page.

### C. Editing and saving information into online forms

#### 1. Adding or Editing Owner Information

- After you have successfully accessed the “Owner Information” page, you may add or edit information in any of the fields just as you did when you initially reported.
- When you are done adding or editing your information, you must click on the [Enter Data] button. This will ensure that your changes are saved into DOORS.

The screenshot shows the 'Owner Information' page in the DOORS system. At the top, there are navigation tabs: 'Owner Information' (highlighted with a red box), 'Vehicle & Engine', 'Engine Repair', 'VDECS', 'Low-use', 'Vehicle Funding', 'Non Standard Engine', 'Non Diesel Engine', 'Stolen Vehicle', and 'Long-Term Rental'.
