

Sent to DOORS Fleets with suspected incorrectly-designated agricultural vehicles

Date Sent: November 20, 2014

Subject: Vehicle(s) Improperly Designated as Agriculture Equipment

Dear Off-Road Fleet Owner/Contact,

Thank you for reporting your off-road diesel vehicles in the Diesel Off-Road Online Reporting System (DOORS) for the California Air Resources Board's (ARB) In-Use Off-Road Diesel Vehicle Regulation (Off-Road Regulation). You reported and designated a vehicle(s) as agriculture that is not classified as agricultural equipment under the Off-Road Regulation. We noticed you are a non-agricultural company that would not typically perform work that is defined as agriculture in the Off-Road Regulation. (for more details see Agriculture Equipment Frequently Asked Questions <http://www.arb.ca.gov/msprog/ordiesel/guidance/ag-operations.pdf>). If your off-road vehicle is reported and designated as agricultural equipment but the vehicle is not operating as such, it will result in a reporting violation.

To undesignate your vehicles as agriculture, please log into your DOORS account, select "Edit Fleet Information", "Vehicle & Engine", and then click "Edit" next to the vehicles listed on the page that are designated as agriculture. Under the "Designated As," drop down box select the blank option to un-designate your vehicle as agriculture. Complete this process for each vehicle listed on the page.

If you need assistance with adding or locating your EO number, or you believe you have received this email in error, please contact the DOORS helpline at 1 877 593 6677 or doors@arb.ca.gov.

Sincerely,
ARB Off-Road Implementation Staff
