

Email to DOORS Fleets with Incomplete Reporting for Non-Standard Engines

Date Sent: October 9, 2014

Subject: Action Needed to Complete your Reporting for the Off-Road Diesel Vehicle Regulation

Dear Fleet Owner/Contact,

Thank you for reporting your off-road diesel vehicles in the Diesel Off-Road Online Reporting System (DOORS) for the California Air Resources Board's (ARB) In-Use Off-Road Diesel Vehicle Regulation (Off-Road Regulation). You are receiving this email because you reported an engine(s) that is/are certified to a different standard (e.g., on-road, consent decree, rebuild, or other), and your reporting is incomplete. Fleets that report vehicles that have engines certified to a more stringent emissions standard are required to report the engine's certification Executive Order (EO) number. Failure to report this information may result in a reporting violation and could negatively affect your fleet's emissions average.

To report the engine EO number, please log into your DOORS account, select "Edit Fleet Information", "Non Standard Engine", and then click "Edit" next to the first engine listed on the page that does not have an EO entered. Once you have entered the EO, select "Save Data" to save the changes. Complete this process for each engine listed on the page. Please see our user guide at <http://www.arb.ca.gov/msprog/ordiesel/documents/doors/userguide-nonstdnondiesel.pdf> for illustrated, step-by-step instructions. Once you have entered the EO(s), please contact me directly at 916-323-1413 or reply this email (or you may contact our DOORS helpline below) so that we may then enter the applicable emission standard for you.

If you need assistance with adding or locating your EO number, or you believe you have received this email in error, please contact me at 916-323-1413 or our DOORS helpline at 1-877-593-6677 or doors@arb.ca.gov.

Thank you in advance for your prompt attention to this matter.

Sincerely,
Leah Marie Basa
