

## FREE TRAINING SEMINAR FOR THE IN-USE OFF-ROAD DIESEL VEHICLE REGULATION

Large Fleet Compliance Training:  
FEBRUARY 10, 2010

To register for the FREE Large Fleet Compliance Training Seminar, go to: [http://www.arb.ca.gov/ondoors/rsvp\\_feb10.php](http://www.arb.ca.gov/ondoors/rsvp_feb10.php)

For those unable to attend in person, the seminar will be webcast (no registration necessary) from: <http://www.calepa.ca.gov/broadcast/?BDO=1>

### What is the Training About?

March 1, 2010 is the first compliance date for the Air Resources Board's (ARB's) In-Use Off-Road Diesel Vehicle Regulation for large fleets, i.e., fleets with over 5,000 total horsepower and federal and state agencies.

To assist large fleets with their compliance efforts, ARB staff will conduct a training seminar geared towards helping owners of large fleets understand the March 1, 2010, compliance requirements. The seminar will provide information on:

- **New Reduced Horsepower and Reduced Activity Credits** – These new credits were implemented specifically to help fleets during the current recession. The seminar will cover how to claim the credits, what records need to be submitted, and which indicators for activity may be used.
- **DOORS 2010 Compliance Summary** – The seminar will cover how to view your fleet's compliance status in DOORS.
- **Fleet Average Calculator** – The seminar will provide examples of how to use the Excel-based calculator (revised in September 2009) to plan for compliance.
- **Retrofit Visibility** – The seminar will also provide an overview of how to use the ARB/OSHA visibility assessment methodology to evaluate a vehicle prior to installing a retrofit to be sure it does not create a visibility impairment, and how to apply for a temporary retrofit exemption if this is not possible for a specific vehicle.

*The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.*

Please note that this training is not intended as an overview of the in-use off-road diesel vehicle regulation. Such an overview is available via ARB's course 504; for more information, please see <http://www.arb.ca.gov/training/courses.php?course=504>

## Who Should Attend the Seminar?

Owners and fleet managers of large fleets, and consultants providing assistance to large fleets. Large fleets are those with over 5,000 total horsepower of off-road diesel vehicles. Federal and state agencies are also considered large fleets, regardless of their total horsepower.

## Where and When is the Seminar?

### SACRAMENTO

**Date:** Feb. 10, 2010  
**Time:** 9:00 A.M.  
**Location:** California Environmental Protection Agency;  
Byron Sher Auditorium  
1001 I Street  
Sacramento, California 95812

This free training seminar will also be webcast at:  
<http://www.calepa.ca.gov/broadcast/?BDO=1>

## How Do I Sign Up?

Please preregister for the FREE Large Fleet Compliance Training Seminar, at: [http://www.arb.ca.gov/ondoors/rsvp\\_feb10.php](http://www.arb.ca.gov/ondoors/rsvp_feb10.php) You do not need to sign up if you plan on viewing the webcast. Pre-registration is not required to attend in person, but is encouraged to assist staff with event logistics.

For further information about the training session, contact the Off-road Implementation Section at (877) 593-6677, or at [doors@arb.ca.gov](mailto:doors@arb.ca.gov)

For more information about the off-road regulation, visiting the In-Use Off-Road Diesel webpage at: <http://www.arb.ca.gov/ordiesel>

For information in alternative formats:  
(916) 323-4916 (voice, ARB ADA Coordinator)  
(916) 324-9531 (TDD, Sacramento area only)  
(800) 700-8326 (TDD, outside of Sacramento)
