

Course #514

Truck and Bus and Tractor-Trailer GHG Reporting Training

The Truck and Bus Regulation applies to privately and federally owned diesel trucks and buses that operate in California. Requirements for the regulation begin January 1, 2012 and are phased-in annually through January 1, 2023. To take advantage of alternate compliance schedules or other flexibility in the regulation, fleets must report by **March 30, 2012**. In addition, the Tractor-Trailer Greenhouse Gas (GHG) Reduction Regulation applies to 53-foot or longer box-type trailers and the heavy-duty tractors that pull them. To take advantage of the optional small fleet phase-in schedule, small fleets with 20 or fewer 53-foot or longer box-type trailers must report by **July 1, 2012**.

This training, conducted by California Air Resources Board (CARB), covers

- The Truck and Bus and Tractor-Trailer GHG Reduction Regulation requirements;
- How to use the automated Truck and Bus Fleet Calculator;
- How to report using the Truck Regulation Upload, Compliance and Reporting System (TRUCRS).

February 9, 2012

9:00 am – 1:00 pm

Cummins Cal Pacific
3061 S. Riverside Ave.
Bloomington, CA, 92316
