

EDrive Systems LLC

Bringing EnergyCS plug-in hybrid technology to the masses.

“Now you can plug it in”

www.edrivesystems.com

 **EDRIVE™**

EDrive = Gen 2 EnergyCS technology

- **Similar performance (100+mpg on Prius)**
- **30-40% reduction in battery box size**
- **25-30% reduction in battery cost**
- **3rd Gen electronics (low parasitic loss)**
- **Redesigned dash-mount display**
- **Improved rear end crumple zone**
- **Access to Prius spare tire**

Availability:

- **Gen1 (EnergyCS) and Gen2 (EDrive) early adopter test fleets ongoing through 2006**
- **Retail EDrive availability in early 2007 for California**
- **Retail EDrive availability in mid-late 2007 beyond California**
- **2004-2006 Toyota Prius (2007?)**
- **Ford Escape Hybrid (?)**

EDRIVE™

Issues:

- **Battery reliability testing ongoing**
- **Battery safety testing ongoing**
- **OEM warranty issues to be resolved**
- **High retrofit cost (mostly battery) will limit consumer acceptance**
