To further strengthen its focus and leadership in the State's emerging fuel cell vehicle market, the Air Resources Board is bringing on board Catherine Dunwoody. Catherine brings her 15 years of experience as Executive Director of the California Fuel Cell Partnership to this new role as Chief of ARB's Fuel Cell Program. Based within ARB's Executive Office, Catherine Dunwoody's role will be outwardly focused on developing and implementing high-level policies with sister agencies, public-private partnerships, and other significant market participants and enablers to ensure the continued accelerating growth of the fuel cell vehicle market in California and the associated hydrogen fueling stations.
