

GREAT BASIN UNIFIED AIR POLLUTION CONTROL DISTRICT

RULE 200 - PERMITS REQUIRED

(Adopted 9/05/74)

- A. Authority to Construct. Before any person builds, erects, alters, or replaces any article, machine, equipment or other contrivance which may cause the issuance of air contaminants or the use of which may eliminate or reduce or control the issuance of air contaminants, such person shall obtain a written authority to construct from the Air Pollution Control Officer. An authority to construct shall remain in effect until the permit to operate the equipment for which the application was filed is granted or denied or the application is cancelled.
- B. Permit to Operate. Before any person operates or uses any article, machine, equipment or other contrivance which may cause the issuance of air contaminants, a written permit shall be obtained from the Air Pollution Control Officer. No permit to operate or use shall be granted either by the Air Pollution Control Officer, or the Hearing Board for any such article, machine, equipment or contrivance described herein until the information required is presented to the Air Pollution Control Officer and such article, machine, equipment or contrivance is altered, if necessary, and made to conform to the standards set forth in Rule 212 and elsewhere in these Rules and Regulations.
- C. Review of Permits. The Air Pollution Control Officer may at any time require from an applicant for, or holder of, any authority to construct or permit to operate, such information, analyses, plans or specifications as will disclose the nature, extent, quantity or degree of air contaminants which are or may be discharged into the atmosphere.
- D. Post of Permit to Operate. A person who has been granted under Rule 200 (B) a permit to operate any article, machine, equipment, or other contrivance described in Rule 200 (B), shall firmly affix such permit to operate, or an approved facsimile or other approved identification bearing the permit number upon the article, machine, equipment or other contrivance in such a manner as to be clearly visible and accessible. In the event that the article, machine, equipment, or other contrivance is so constructed or operated that the permit to operate cannot be so placed, the permit to operate shall be mounted so as to be clearly visible in an accessible place within 25 feet of the article, machine, equipment or other contrivance, or maintained readily available at all times on the operating premises.
- E. Alteration of Permit. A person shall not willfully deface, alter, forge, counterfeit, or falsify any permit issued under these Rules and Regulations.
- F. Control Equipment. Nothing in this rule shall be construed to authorize the control officer to require the use of machinery, devices, or equipment of a particular type or design if the required emission standard may be consistently met by machinery, devices, equipment, product or process change otherwise available.
