

CLASSIFICATION: Air Resources Supervisor I	Time Base: Fulltime	SALARY: \$7,377.00 - \$8,965.00	FFD: February 18, 2011 or Until Filled
LOCATION: Sacramento		DIVISION: MLD	
CONTACT: Kim Ohara		E-MAIL: kohara@arb.ca.gov	PHONE: (916) 323-1697
MAILING ADDRESS: P.O. Box 2815, Sacramento, CA 95812			
<p>DUTIES: Due to the Governor's Hiring Freeze, only internal Air Resources Board (ARB) lateral candidates will be considered. The Regulation Development Section is seeking a new, dynamic, highly qualified leader who can effectively chart a new direction for the group while supporting existing core priorities. The mission of the section is two-fold. Its principal responsibility is to advance the Board's evaporative emission control program. The section has unique expertise for the design, development, and implementation of control measures for VOC evaporative emission reduction applicable to diverse sources such as recreational vehicle fueling systems and portable fuel cans. An emerging and important area of work for this section and the Branch is particulate matter emissions from engines and vehicles. This new activity supplements long-standing division work on PM as well as efforts in other divisions in support of the Board's motor vehicles and diesel programs. Specifically, the incumbent is expected to lead interdivisional, collaborative efforts on PM emissions testing in particular complementary work at the new Mobile Source Operations Division heavy-duty laboratory in Sacramento. An Air Resources Supervisor I is expected to be able to direct and supervise professional, multidisciplinary staff. He/she will plan, evaluate, coordinate, and manage section activities in various air pollution control programs. The supervisor will oversee staff performing several different tasks including developing new and implementing existing regulations; working closely with stakeholders and the public by conducting workshops and outreach; coordination with the other ARB groups working on PM; fostering interaction with national and international entities with similar interests such as the districts, U.S. EPA, and the United Nation's group working on harmonization of test procedures; developing PM and evaporative emission test programs; and publishing research results in recognized, peer-reviewed scientific journals. Working independently and under the guidance and supervision of the Evaporative Controls and Certification Branch Chief, the successful applicant will direct and supervise all projects and tasks associated with the Regulation Development Section, including administrative responsibilities consistent with the position.</p>			
<p>DESIRABLE QUALIFICATIONS: Demonstrated leadership experience as well as significant technical and scientific expertise in the core areas of work described above. Previous experience in evaporative emission control, PM emission characterization, regulatory development, and test method development are necessary. The candidate must have outstanding communication and supervisory qualities, strong analytical and problem solving skills, and have the demonstrated ability to understand complex technical and policy issues. The ability to effectively interact with all levels of ARB staff as well as outside agencies and experience with coordinating multiple projects to meet shared goals is required.</p> <p>The most competitive candidate will have an advanced degree in engineering or other scientific discipline (terminal degree preferred), and experience in the areas listed above. In addition, the candidate should possess a successful track record of initiating and developing new and challenging programs, including a high degree of commitment for making original and sustained contributions to the core and evolving objectives of the Monitoring and Laboratory Division. Excellent writing, communication, and exceptional time management skills are necessary. A team player with a positive attitude and an honest desire to work hard for clean air in California will join an exceptional group of dedicated engineers and scientists who represent the highest caliber of personnel in State civil service. Only the most qualified applicants will be selected for an interview.</p>			

INSTRUCTIONS: In order to insure job opportunity information displayed via the State Personnel Board's (SPB) WVPOS system is accurate, it is very important that the information provided via the job opportunity form be entered as follows:

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.

- Classification - This field is used by the WVPOS system as a search field. WVPOS recognizes only State civil service classification titles. Do not use working titles, abbreviated titles or include a "range" in the title. (Example: Air Pollution Specialist)
- Time Base - Enter the time base of the vacant position (Example: Full Time, Part Time, etc.)
- Salary - Use the first step and last step of the salary range. If the classification includes more than one range, use the first step of Range A and the last step of the highest Range of the classification.
- FFD - Enter the last day for which applications will be accepted for consideration in filing the position. Enter the date in the following format mm/dd/yyyy.
- Location - Enter only the city in which the position is headquartered (Sacramento, El Monte, etc.).
- Division - Enter only the appropriate code as displayed below for the Division in which the position exists.

DIVISION	CODE
Administrative Services Division	ASD
Chairman's Office	CO
Enforcement Division	ED
Executive Office	EO
Mobile Source Control Division	MSCD
Mobile Source Operations Division	MSOD
Monitoring & Laboratory Division	MLD
Office of Information Services	OIS
Planning & Technical Support Division	PTSD
Research Division	RD
Stationary Source Division	SSD

- Contact - Enter the name of the person to be contacted regarding the vacant position.
- E-Mail - Enter the ARB e-mail address of the designated contact person.
- Phone - Enter the ARB phone number of the designated contact person and include the area code.
- Mailing Address - Enter the address to which applications should be submitted.
- Duties - Enter a brief description of the typical duties of the vacant position.
- Desirable Qualifications - Enter a brief statement of the qualifications that are desired in filing the position. Include any requirements of the position which are not typical (Example: travel required, must be able and willing to use special safety equipment, uniformed classification, climbing required, etc.)
