#### **BACKGROUND**

The federal Clean Air Act establishes planning requirements for those areas that exceed the health-based National Ambient Air Quality Standards (standards). Areas are designated as nonattainment based on monitored exceedances of air quality standards. These nonattainment areas must develop and implement a plan that demonstrates how they will attain the standards by specified dates.

Sacramento County was designated a moderate non-attainment area by U.S. EPA in January 1994. In March 2002, U.S. EPA officially determined that Sacramento County had attained the 24-hour PM10 standard by the December 31, 2000 deadline. By making a clean data finding, U.S. EPA waived certain planning requirements including those for reasonable further progress, an attainment demonstration, reasonably

available control measures, and contingency measures, since these provisions have the sole purpose of helping achieve attainment of the standard.

On October 28, 2010, the District adopted the PM10 Plan. The PM10 Plan officially requests that Sacramento County be redesignated to attainment for the PM10 standard and charts the course for continued maintenance of the standard. In addition, the PM10 Plan documents a transportation conformity budget through 2022.

### **PROPOSED ACTION**

ARB staff has reviewed the District's PM10 Plan and has concluded that it meets applicable Clean Air Act requirements. ARB staff has also determined that the PM10 Plan would ensure continued maintenance of the standard for the required ten years following redesignation. Staff is recommending that the Board approve the PM10 Plan, as well as the corresponding emissions inventory, maintenance demonstration, and transportation conformity budget as a revision to the California SIP. In addition, ARB staff is recommending that the Board approve the District's request that Sacramento County be redesignated from nonattainment to attainment for the national PM10 standard.

### **AVAILABILITY OF DOCUMENTS**

ARB staff has prepared a written Staff Report. Copies of the Staff Report may be obtained from the ARB Public Information Office, 1001 "I" Street, First Floor, Environmental Services Center, Sacramento, California 95814, (916) 322-2990.
