

March 4, 2009

Mr. James Goldstene, Executive Officer
California Air Resources Board
P.O. Box 2815
Sacramento, CA 95814-2815

Dear Mr. Goldstene:

The Sacramento region has been designated a "serious" nonattainment area for the 1997 federal 8-hour ozone standard. On February 4, 2008, the region requested a re-designation to the "severe" nonattainment classification. The Federal Clean Air Act requires the Sacramento region to submit an attainment demonstration and reasonable further progress plan per sections 172(c) and 182(c)(2). Enclosed are multiple copies of the resolution adopted by the Yolo-Solano Air Quality Management District Board of Directors. Also included are multiple copies of the proofs of publication, evidence of public notice (Board Agenda and signed Minute Order 09-09), and comments and responses received on the draft plan. The plan itself, as well as the associated EIR, has been submitted to you by the Sacramento Metropolitan Air Quality Management District.

We would like to thank the Air Resources Board and its staff for their assistance in completing the SIP. If you have any questions or need anything further from us, please don't hesitate to contact our office.

Sincerely,

Mat Ehrhardt, P.E.
Air Pollution Control Officer

Attachments:

- Yolo Solano Air Quality Management District Signed Resolution (4 copies)
- Proofs of Publication (6 papers, 4 sets of hard copies)
- Board Agenda (4 copies)
- Minutes Order (4 copies)
- Public Comments and Responses on draft plan (4 copies)
- Electronic copies of all the listed files above (2 sets on 2 CDs)
