

**Statewide Portable Equipment Registration Program**  
**FORM 7 - Modification to an Existing Registration**

(Auto-fill format. Press "Tab" or up/down arrows to enter information. Additional form information is provided on the reverse side.)

PERP Registration forms are available at <http://www.arb.ca.gov/portable/portable.htm>.

1. Company Name: _____		
2. Registration Number: _____	3. Serial Number: _____	
<p>4. <input type="checkbox"/> Identical Replacement (\$75.00)</p> <p>Fill out a <i>Form 2</i> for engines or one of the <i>Form 3</i> series for equipment units.          Attach documentation describing the mechanical breakdown.</p> <p>Note: An identical replacement is appropriate only for cases of <u>mechanical breakdown</u> of an engine or equipment unit. Once an engine has been replaced, it may only re-enter PERP with a new application for initial registration. It must meet eligibility requirements at the time of the application.</p> <p>Date engine/equipment unit was replaced: _____</p>		
<p>5. <input type="checkbox"/> Modification to an Engine or Equipment Unit's Operation, Configuration, or Emission Control Equipment (\$75.00)</p> <p><input type="checkbox"/> Engine designated as emergency use only</p> <p><input type="checkbox"/> Engine designated as a low use engine</p> <p><input type="checkbox"/> Engine or equipment unit will operate in State Territorial Waters</p> <p><input type="checkbox"/> Verified Diesel Emission Control Strategy (VDECS) retrofit installation</p> <p style="margin-left: 40px;"><input type="checkbox"/> Level 1   <input type="checkbox"/> Level 2   <input type="checkbox"/> Level 3   ARB Executive Order number: _____</p> <p style="margin-left: 40px;">ARB VDECS family name: _____</p> <p><input type="checkbox"/> Other: _____</p> <p>(For emission control systems other than VDECS, attach appropriate test results.)</p>		
<p><b><i>I certify that the above action(s) will not add or remove engines which cause the fleet average emissions of engines owned and operated in California, by our company or agency to exceed the current January 1, 2013, diesel PM emission standard.</i></b></p>		
6. Name of Responsible Party: _____		Title: _____
Signature of Responsible Party: _____		Date: _____
Phone Number: _____		
7. Enclose Check Payable To:  California Air Resources Board Portable Equipment Registration Program P.O. Box 2038 Sacramento, CA 95812	OR    Use the <i>Credit Card Authorization Form (ASD/FISCAL 307)</i> to pay by credit card.	Total Fees Enclosed:  \$ _____

*Form 7 Instructions*

Use this form only if the engine or equipment unit has an existing registration with the Air Resources Board (ARB).

1. *Company Name* - Legal name on the existing registration.
2. *Registration Number* – The number shown on the existing registration certificate and sticker.
3. *Serial Number* – The serial number of the engine or equipment unit.
4. *Identical Replacement* - Check this box if a registered engine or equipment unit is being replaced by an identical engine or unit. Identical means it is the same make, model, maximum capacity or horsepower rating and has equal or lower emissions. An identical replacement is appropriate only for cases of mechanical breakdown of an engine or equipment unit. See sections 2452 and 2453 of the PERP Regulation for requirements. [www.arb.ca.gov/portable/perp/perpreg.pdf](http://www.arb.ca.gov/portable/perp/perpreg.pdf).

Fill out and attach *Form 2* to this *Form 7*. Remove or destroy the sticker on the replaced unit. The fee is \$75.00 per unit and you may operate the equipment after submitting this replacement request to ARB.

5. *Modification to an Engine or Equipment Unit's Configuration or Emission Control Equipment* - Describe the change in operation or configuration or any retrofit emission control equipment installed. Attach appropriate manufacturer's specifications or test results or a modified equipment unit material flow diagram. For VDECS we only need the ARB Executive Order number. For SCR systems provide a copy of the emission test results.

If the modification is to allow the engine or equipment unit to operate in State Territorial Waters (0 to 3 miles offshore), check the appropriate box.

If the engine is to be designated for emergency or low use, check the appropriate box. There are strict limitations for operation of engines so designated. Please review the Portable Diesel Engine ATCM to determine if your engine can comply with these limitations: <http://www.arb.ca.gov/portable/perp/perpatcm.pdf>.

If you installed a VDECS device such as a diesel particulate filter, the device must be one which has been verified by ARB and meets the terms and conditions in the ARB Executive Order. Enter the ARB Executive Order number and the VDECS family name from the label on the device. The modification applies only to retrofit devices, not to devices which are part of the engine as it is produced by the engine manufacturer.

***Important: If the modification action you are requesting on this form adds or removes engines from your fleet, such action must not cause your company's emissions average to exceed the current standards for the applicable power category of the engine.***

6. *Name, Title, Date, Signature, and Phone Number of Responsible Party* – The person signing and dating form.
7. *Payment and Mailing Information* – Payment may be by check or credit card. Use the *Credit Card Authorization Form (ASD/FISCAL 307)* to pay by credit card.
