*If purchase records are available, the fees are based on the date of purchase. (For example, in 2005 you bought an engine with a model year of 2001. You have a copy of the bill of sale. Therefore, the registration fee for this engine would be \$935).

**If purchase records are not available, the fees are based on the date of manufacture of the engine. (For example, in 2006 you bought an engine with a model year of 2003. You do not have a copy of the bill of sale. Therefore, the registration fee for this engine would be \$1,250).
