PUBLIC HEARING TO CONSIDER THE ADOPTION OF PERMIT FEE REGULATIONS FOR
NONVEHICULAR SOURCES PURSUANT TO THE CALIFORNIA CLEAN AIR ACT

Public Hearing Date: April 14, 1994
Public Availability Date: May 12, 1994
Deadline for Public Comment: May 27, 1994

At its April 14, 1994, public hearing, the Air Resources Board (ARB or Board) approved the adoption of new section 90800.5 and amended section 90803, Title 17, California Code of Regulations (CCR), requiring local air pollution control and air quality management districts to collect permit fees from nonvehicular sources which emit 500 tons or more per year of any nonattainment air pollutant or precursor. The fees, which are to be remitted to the ARB, are necessary to defray a portion of the cost to the Board of implementing requirements of the California Clean Air Act (Stats. 1988, c. 1568) related to nonvehicular sources.

At the hearing, the staff presented modifications to the original proposal as set forth in the staff report released on February 25, 1994. These modifications included a recalculation of the fee rate due to a number of emission changes reported by one district. In recalculating the fees, the fee rate of \$15.57 per ton shown in the staff report was changed to \$15.83 per ton, and the total amounts of fees to be remitted to the Board by the affected districts were adjusted. The Board approved these modifications to the regulations. Also, a change occurred in the boundary between two districts. This does not affect the fee rate but it does change the district that is responsible for collecting fees from one facility.

In accordance with section 11346.8 of the Government Code, the Board directed the Executive Officer to adopt section 90800.5 and amended section 90803, Title 17, CCR, after making the modified regulations available to the public for comment for a period of at least 15 days, provided that the Executive Officer shall consider such written comments as may be received and shall make such modifications as are deemed appropriate in light of the comments received, and shall present the regulations to the Board for further consideration if warranted.

Attached is a copy of Board Resolution 94-19, which approves the permit fee regulations. Attached to the resolution are the regulations as approved by the Board. The language proposed for adoption in the original staff proposal is shown in single underline to indicate additions to existing regulations. Modifications approved by the Board are shown in strikeout to indicate deletions from and double underlines to indicate additions to the

original staff proposal. Also attached to this notice are the revised versions of Table 2 and Attachment D of the staff report. Table 2 is a summary of the emission and fee amounts for each district in the fee program. Attachment D is a list of affected facilities and their emissions that are subject to the fees. The revised versions reflect the final emission data reported by the districts by April 14, 1994, including data reported by districts after February 4, 1994.

Written comments on the modifications approved by the Board on April 14, 1994, must be submitted to the Board Secretary, Air Resources Board, P. O. Box 2815, Sacramento, California 95812, no later than May 27, 1994, for consideration by the Executive Officer. Only comments relating to the modifications to the regulations and supporting documents described in this notice shall be considered by the Executive Officer.

AIR RESOURCES BOARD

Resolution 94-19

April 14, 1994

Agenda Item No.: 94-4-1

WHEREAS, sections 39600 and 39601 of the Health and Safety Code authorize the Air Resources Board (the "Board") to adopt standards, rules and regulations and to do such acts as may be necessary for the proper execution of the powers and duties granted to and imposed upon the Board by law;

WHEREAS, the Legislature in 1988 enacted the California Clean Air Act of 1988 (the "Act"; Stats. 1988, ch. 1568) to address the problem of air pollution in California;

WHEREAS, in the California Clean Air Act the Legislature declared that attainment of the Board's health-based ambient air quality standards is necessary to protect public health, particularly of children, older people, and those with respiratory diseases and directed that these standards be attained at the earliest practicable date;

WHEREAS, the California Clean Air Act directs the Board to perform numerous tasks related to both vehicular and nonvehicular sources of air pollution;

WHEREAS, section 39612 of the Health and Safety Code authorizes the Board to require air pollution control and air quality management districts ("districts"), beginning July 1, 1989, to impose additional permit fees on nonvehicular sources which emit 500 tons per year or more of any nonattainment pollutant or its precursors in order to recover costs of additional state programs related to nonvehicular sources authorized or required by the Act;

WHEREAS, the Board staff has conferred with representatives of local districts and with their assistance has developed a proposed fee program which specifies the amount of fees to be collected by each district for transmission to the Board;

WHEREAS, the proposed fee regulations have been designed to provide the Board with net revenues of three million dollars (\$3,000,000) to cover budgeted expenses for Fiscal Year 1994-95 of implementing nonvehicular source related activities under the Act;

WHEREAS, the proposed fee regulations provide that any excess fees collected shall be carried over and considered when setting fees in future years;

WHEREAS, the proposed fee regulations specify by district the amount to be transmitted to the Board for deposit in the Air Pollution Control Fund in

Fiscal Year 1994-95 and authorize each district to assess additional fees to recover the administrative costs to the district of collecting the fees;

WHEREAS, pursuant to section 39612 of the Health and Safety Code, the proposed fee program for Fiscal Year 1994-95 is based on emissions of nonattainment pollutants or their precursors, as provided in the Act, using the most current statewide emission data available from the districts, which are for calendar year 1992;

WHEREAS, the California Environmental Quality Act and Board regulations require that no project which may have significant adverse environmental impacts be adopted as originally proposed if feasible alternatives or mitigation measures are available to reduce or eliminate such impacts;

WHEREAS, a public hearing and other administrative proceedings have been held in accordance with the provisions of Chapter 3.5 (commencing with section 11340), Part 1, Division 3, Title 2 of the Government Code;

WHEREAS, the Board finds that:

The funds which would be collected pursuant to the proposed fee regulations are needed to implement the nonvehicular source related programs established pursuant to the California Clean Air Act;

The excess fees collected in Fiscal Year 1992-93 have been carried over and considered in the calculation of fees in the proposed regulation;

The proposed fee regulations are based on annual emissions of nonattainment pollutants from facilities that emit 500 tons per year or more of any nonattainment pollutant or its precursors based on the most recent statewide data available;

The proposed fee regulations will not affect the creation or elimination of jobs within the State of California, the creation of new businesses or the elimination of existing businesses within California, the expansion of businesses currently doing business within California, or the ability of California Businesses to compete with businesses in other states;

The proposed fee regulations will not have a significant adverse economic impact on either the affected sources, on other businesses or private persons affected, or on the districts, which are authorized to recover the administrative costs of collecting the fees; and

WHEREAS, the Board has determined, pursuant to the requirements of the California Environmental Quality Act and the Board's regulations, that this regulatory action will not have any significant adverse impact on the environment.

NOW, THEREFORE, BE IT RESOLVED that the Board hereby approves sections 90800.5 and 90803, Title 17, California Code of Regulations, as set forth in Attachment A hereto.

BE IT FURTHER RESOLVED that the Board directs the Executive Officer to adopt sections 90800.5 and 90803, Title 17, California Code of Regulations, after making them available to the public for a period of 15 days, provided that the Executive Officer shall consider such written comments as may be submitted during this period, shall make modifications as may be appropriate in light of the comments received, and shall present the regulations to the Board for further consideration if he determines that this is warranted.

BE IT FURTHER RESOLVED that the Board directs the Executive Officer to forward the attached regulations to the affected districts for appropriate action, and to the Department of Finance, the Legislative Analyst, and the State Controller, for information and for appropriate action.

BE IT FURTHER RESOLVED that the Board gives notice of its intention to review the status of the program to implement the provisions of the California Clean Air Act in 1995, and to reconsider at that time the renewal and modification, as necessary, of the fee program in order to reflect changes in program needs and capabilities, base year emissions, and such other factors as may influence funding requirements of the Act.

I hereby certify that the above is a true and correct copy of Resolution 94-19, as adopted by the Air Resources Board.

PERMIT FEE REGULATIONS FOR NONVEHICULAR SOURCES
PURSUANT TO THE CALIFORNIA CLEAN AIR ACT
REVISED REGULATIONS

NOTE: The existing regulations are not being repealed. The adopted new section 90800.5 and amendment to existing section 90803 are being proposed and are shown in underline and strikeout format. Single underlines indicate those additions and amendments to the regulations that were originally proposed in the staff report. Changes presented at the April 14, 1994, Board meeting to reflect new information received since the staff report was published are shown with strikeouts to indicate deletions from and double underlines to indicate additions to the originally proposed regulations.

PROPOSED

CALIFORNIA CLEAN AIR ACT
NONVEHICULAR SOURCE FEE REGULATIONS

Adopt New Section 90800.5
and Amend Section 90803
Subchapter 3.8, California Clean Air Act
Nonvehicular Source Fee Regulations¹,
as follows:

90800. Fee Requirements for Fiscal Year 1989-90.

(a) No later than 180 days after the effective date of Sections 90800-90803, each district identified below shall transmit the dollar amount specified below to the Board for deposit into the Air Pollution Control Fund. The amount transmitted shall be collected from facilities which are the holders of permits for sources which emitted 500 tons or more per year of any nonattainment pollutant or precursors during the period from January 1, 1987, through December 31, 1987, inclusive. The fees shall be in addition to permit and other fees already authorized to be collected from such sources. The fee to be charged shall be nine dollars and ninety-two cents (\$9.92) per ton.

(1) Bay Area Air Quality Management District: six hundred seven thousand two hundred ninety-five dollars (\$607,295);

1/ The current regulations are not being repealed. The proposed new section 90800.5 and amendment to existing section 90803 are shown in underline to indicate additions to existing regulations.

- (2) Butte County Air Pollution Control District: eight thousand nine hundred fifty-eight dollars (\$8,958);
- (3) Fresno County Air Pollution Control District: thirty-four thousand one hundred fifty-five dollars (\$34,155);
- (4) Kern County Air Pollution Control District: four hundred eighty-eight thousand eight hundred fifty-eight dollars (\$488,858);
- (5) Kings County Air Pollution Control District: six thousand two hundred ninety-nine dollars (\$6,299);
- (6) Monterey Bay Unified Air Pollution Control District: seventy-six thousand three hundred thirty-six dollars (\$76,336);
- (7) North Coast Unified Air Pollution Control District: forty-nine thousand five hundred seventy-one dollars (\$49,571);
- (8) Sacramento County Air Pollution Control District: eleven thousand nine hundred fourteen dollars (\$11,914);
- (9) San Bernardino County Air Pollution Control District: two hundred six thousand one hundred forty-two dollars (\$206,142);
- (10) San Diego County Air Pollution Control District: fifty-three thousand six hundred thirty-nine dollars (\$53,639);
- (11) San Joaquin County Air Pollution Control District: thirty-three thousand two hundred thirteen dollars (\$33,213);
- (12) San Luis Obispo County Air Pollution Control District: eighty-nine thousand two hundred thirty-two dollars (\$89,232);
- (13) Santa Barbara County Air Pollution Control District: twenty-four thousand eight hundred eighty dollars (\$24,880);

- (14) Shasta County Air Pollution Control District:
thirteen thousand nine hundred forty-eight dollars
(\$13,948);
 - (15) South Coast Air Quality Management District: five
hundred eighty-five thousand five hundred ninety
dollars (\$585,590);
 - (16) Stanislaus County Air Pollution Control District:
nine thousand seven hundred fifty-two dollars
(\$9,752);
 - (17) Ventura County Air Pollution Control District:
forty-eight thousand seven hundred eighteen dollars
(\$48,718).
- (b) Emissions from facilities identified on or before June 12, 1989, as having emitted 500 tons or more per year of any nonattainment pollutant or precursors during the period January 1, 1987, through December 31, 1987, shall be used to determine compliance with these regulations.
- (c) In addition to the amount cited in subsection (a) above, a district shall, for any facility identified after June 12, 1989, as having emitted 500 tons or more per year of any nonattainment pollutant or its precursors during the period from January 1, 1987, through December 31, 1987, transmit to the Board for deposit into the Air Pollution Control Fund nine dollars and ninety-two cents (\$9.92) per ton of such pollutant or precursor.

(b) Emissions from facilities identified by the Air Resources Board on or before ~~February 4, 1994~~ April 14, 1994, as having emitted 500 tons or more per year of any nonattainment pollutant or precursors during the period January 1, 1992, through December 31, 1992, shall be used to determine compliance with these regulations. Emissions from a facility are excluded from compliance with these regulations if the emissions from the facility would be subject to these regulations solely because the facility is in a district which is designated in section 60201 as not having attained the state ambient air quality standard for ozone solely as a result of ozone transport identified in section 70500, Title 17, California Code of Regulations.

(c) In addition to the amount cited in subsection (a) above, a district shall, for any facility identified after February 1, 1994 April 14, 1994, as having emitted 500 tons or more per year of any nonattainment pollutant or its precursors during the period from January 1, 1992, through December 31, 1992, transmit to the Board for deposit into the Air Pollution Control Fund fifteen dollars and fifty-seven cents (\$15/57) fifteen dollars and eighty-three cents (\$15.83) per ton of such pollutant or precursor.

NOTE: Authority cited: Sections 39600, 39601 and 39612, Health and Safety Code. Reference: Sections 39002, 39500, 39600 and 39612, Health and Safety Code.

90801. Definitions.

- (a) "Facility" means any nonvehicular source which requires a permit from the district.
- (b) "Nonattainment pollutant" means any substance for which an area has been designated in sections 60200-60209 as not having attained a state ambient air quality standard listed in section 70200, Title 17, California Code of Regulations, as of July 1 of the fiscal year for which fees are being collected.
- (c) "Nonattainment precursor" means any substance which reacts in the atmosphere to contribute to the production of a nonattainment pollutant or pollutants in an area designated in sections 60200-60209 as not having attained a state ambient air quality standard listed in section 70200, Title 17, California Code of Regulations, as of July 1 of the fiscal year for which fees are being collected.

(d) For the purposes of this regulation, "nonattainment pollutants and precursors" shall be defined as follows:

Substance (as listed in Section 70200, Title 17, CCR):	nonattainment pollutant/precursor:
Ozone	reactive organic gases, oxides of nitrogen
Sulfur Dioxide	oxides of sulfur
Sulfates	oxides of sulfur
Nitrogen Dioxide	oxides of nitrogen
Carbon Monoxide	carbon monoxide
Suspended Particulate Matter (PM ₁₀)	suspended particulate matter (PM ₁₀), oxides of nitrogen, oxides of sulfur reactive organic gases
Visibility Reducing Particles	suspended particulate matter (PM ₁₀), oxides of nitrogen, oxides of sulfur reactive organic gases
Hydrogen Sulfide	hydrogen sulfide
Lead	lead

e) "Operator" means the person who owns or operates a facility or part of a facility.

NOTE: Authority cited: Sections 39600, 39601 and 39612, Health and Safety Code. Reference: Sections 39002, 39500, 39600 and 39612, Health and Safety Code.

90802. Fee Payment and Collection.

- (a) Each district shall notify and assess the operator of each facility subject to permit fees, as provided for in these regulations, in writing of the fee due. The fee shall be past due 60 days after receipt by the operator of the fee assessment notice.
- (b) Each district shall assess an additional fee on operators failing to pay the fee within 60 days of receipt of the fee assessment notice. The district shall set the late fee in an amount sufficient to pay the district's additional expenses incurred by the operator's untimely payment.
- (c) Any fees submitted to the state which exceed costs to the state of additional state programs authorized or required by the California Clean Air Act of 1988 related to nonvehicular sources, shall be carried over by the state for expenditure for these purposes.
- (d) Each district may recover administrative costs to the district of collecting the fees pursuant to these regulations. At the request of the State Board, a district shall provide to the State Board, within 30 days of the request, substantiation of administrative costs.

NOTE: Authority cited: Sections 39600, 39601 and 39612, Health and Safety Code. Reference: Sections 39002, 39500, 39600 and 39612, Health and Safety Code.

90803. Failure of Facility to Pay Fees.

In the event any district is unable to collect the assessed fee from any source due to circumstances beyond the control of the district, including but not limited to facility closure or refusal of the operator to pay despite permit revocation and/or other enforcement action, such district shall notify the Executive Officer of the State Board. For demonstrated good cause, the district may be relieved from that portion of the fees the district is required to collect and remit to the state as set forth in section 90800 or section 90800.1 or section 90800.2 or section 90800.3 or section 90800.4 or section 90800.5. Nothing herein shall relieve the operator from any obligation to pay any fees assessed pursuant to this regulation.

NOTE: Authority cited: Sections 39600, 39601 and 39612, Health and Safety Code. Reference: Sections 39002, 39500, 39600 and 39612, Health and Safety Code.

* Based on designations of areas as "nonattainment" in sections 60200-60209, Title 17, CCR

** The values in this column are calculated by dividing \$2,718,872 by the total statewide emissions subject to this regulation, and multiplying that value by the total emissions subject to this regulation in a district. Because the per-ton fee of \$15.83 has been rounded off, the proposed fee for an individual district will not be exactly equal to the total emissions in the district multiplied by \$15.83.
