Fourth Notice of Public Availability of Modified Text

**PUBLIC HEARING TO CONSIDER THE ADOPTION OF THE REGULATORY
PROPOSAL TO DETERMINE AND CONTROL EVAPORATIVE EMISSIONS FROM
OFF-HIGHWAY RECREATIONAL VEHICLES**

Public Hearing Date: July 25, 2013
First Public Availability Dates: January 14, 2014 – January 29, 2014
Second Public Availability Dates: April 28, 2014 – May 13, 2014
Third Public Availability Dates: August 7, 2014 - August 22, 2014
Fourth Public Availability Release Date: September 17, 2014
Deadline for Fourth Public Comment Period: October 2, 2014

At its July 25, 2013 public hearing, the Air Resources Board (ARB or Board) approved for adoption the proposed changes to California Code of Regulations (CCR), title 13, sections 2416, 2417, 2418, 2419.1, 2419.2, 2419.3, 2419.4, and 2419.5, which expand evaporative emission control requirements for off-highway recreational vehicles (OHRV) to include a whole vehicle diurnal evaporative emission standard, certification, labeling, enforcement, anti-tampering, recall, and use restrictions. A new test procedure to measure evaporative emissions, TP-933 “Test Procedure for Determining Evaporative Emissions from Off-Highway Recreational Vehicles,” (TP-933) was also approved for adoption and is incorporated by reference in CCR, title 13, sections 2417, 2418, and 2419.5.

At the hearing, the Board approved modifications to the regulatory language originally proposed in the Staff Report released on June 5, 2013, in response to comments received after the Staff Report was published. The new sections 2416-2419.5 were approved, as modified, in Board Resolution 13-33. The resolution and all other regulatory documents for this rulemaking are available online at the following ARB website: <http://www.arb.ca.gov/regact/2013/ohrv2013/ohrv2013.htm>

In accordance with the Government Code, section 11346.8, the Board directed the Executive Officer to adopt the proposed regulatory language as modified after making them available to the public for comment for a period of at least 15 days. The Board further directed the Executive Officer to consider such written comments as may be submitted during the comment period, make modifications as may be appropriate in light of the comments received, and present the regulations to the Board for further consideration if warranted.

As directed by the Board on July 25, 2013, the First Notice of Public Availability of Modified Text and Availability of Additional Documents and Information (1st 15-day Change Notice) was issued on January 14, 2014. The Second Notice of Public

Availability of Modified Text (2nd 15-day Change Notice) corrected section enumeration and made minor changes to improve clarity.

The regulation was sent to the Office of Administrative Law (OAL) for review and was disapproved, the details of which can be found on the OHRV rulemaking website: <http://www.arb.ca.gov/regact/2013/ohrv2013/ohrv2013.htm> The Third Notice of Public Availability of Modified Text (3rd 15-day Change Notice) addressed the concerns raised by OAL in their notice of disapproval, and included additional modifications to improve clarity and correct minor errors in the regulatory text and incorporated TP-933.

This notice is an announcement of the opening of a fourth 15-day public comment period for proposed modifications to control evaporative emissions from OHRVs. The additional proposed modifications will address the comments received during the third 15-day public comment period, and further improve clarity while preserving the intent of the Board approved amendments.

Summary of Proposed Modifications

Comments received during the third 15-day comment period highlighted changes needed to the posted language. The changes include clarification of a manufacturer's options when notified that their test OHRV does not meet applicable standards as specified in section 2419.4(b)(6)(D). To be consistent with other mobile source categories, the requirement to retain the test OHRV used to generate certification data specified in section 2419.4(d)(1)(C) is removed. Finally, section 2419(f)(1)(C) was made more specific by eliminating text regarding modifications allowed during compliance testing.

Modified Text Being Made Available

The fourth 15-day modifications are set forth in Attachment 1 (section 2419.4, tit. 13, Cal. Code Regs.) of this notice. They contain relevant portions of title 13, California Code of Regulations and the documents incorporated by reference that are affected by the modifications being proposed with this notice. The proposed adoption of the new sections is shown in plain text in the 45-day notice. The first 15-day proposed changes, released on January 14, 2014, are shown in single underline to indicate additions and ~~single strikeout~~ to indicate deletions from the originally proposed regulatory text. The second 15-day proposed changes, released on April 28, 2014, are shown in double underline and ~~double strikeout~~, respectively. Changes proposed in the third 15-day notice are shown in **double underline bold italics** and ~~**double strikeout bold italics**~~, respectively. Changes proposed in this fourth 15-day notice are shown in shaded single underline and ~~shaded single strikeout~~, respectively. The symbol "*****" means that intervening text not proposed for modification is not shown.
