AIR RESOURCES BOARD

Notice of Decision

Project Title: Regulation for State Implementation Plan Credit from
Mobile Agricultural Equipment
(SCH# 2013092014)

Project Location: Statewide

Public Meeting Date: October 25, 2013; Agenda Item 13-9-7

Project Description: The Regulation for State Implementation Plan Credit from Mobile Agricultural Equipment provides an administrative mechanism to ensure emission reductions from voluntary incentive programs implemented following the Carl Moyer Program Guidelines are eligible for SIP credit and can be used towards meeting a SIP commitment. The regulation is intended to complement SJVAPCD's Rule 9610, which provides administrative requirements on local, state, and federal voluntary incentive programs in the San Joaquin Valley to ensure that emission reductions will be eligible to receive SIP credit. Other air districts in California may opt-in to be considered for SIP credit; however, they must comply with the requirements of this proposed regulation to be eligible.

Approved By: Air Resources Board
Dated: August 25, 2014

This notice is to advise that the Air Resources Board (ARB), as the lead agency, adopted the regulatory action described above on August 25, 2014 (see attached Executive Order R-14-007).

ARB prepared an environmental analysis (EA) in accordance with the requirements of its certified regulatory program under CEQA. (Cal. Code Regs., tit. 14, §15251, subd. (d).) The EA, included in the *Staff Report: Initial Statement of Reasons* prepared for the proposed rulemaking, concluded implementation of the amendments would not result in any significant adverse environmental impacts. No written comments received during the 45-day comment period raised any significant environmental issues pertaining to this item.

The Staff Report identified no significant adverse environmental effects, and no comments were received identifying any significant environmental issues pertaining to this item. No mitigation

measures, findings, or statement of overriding considerations were adopted for this project because the project will not have a significant adverse impact on the environment. The Board approved the amendments for adoption at a public hearing held on October 25, 2013. The Board found, on the basis of the whole record including the EA, no substantial evidence that the amendments will result in any significant adverse impacts on the environment. No mitigation measures, findings, or statement of overriding considerations were adopted for this regulatory action.

The EA included in the Staff Report, and all other regulatory documents, are available on the ARB rulemaking webpage at:
