

State of California
Environment Protection Agency
AIR RESOURCES BOARD

Notice of Exemption

- Project Title:** Amendments to the Regulation for the Mandatory Reporting of Greenhouse Gas Emissions
- Project Location:** Statewide
- Public Meeting Date:** September 18, 2014; Agenda Item # 14-7-6
- Project Description:** The amendments to the Mandatory Reporting Regulation (MRR) continues to provide regulated entities with a reporting program for submitting GHG emissions data reports to ARB. The amendments affect only program administration and contents of databases that will: integrate AB 32 Cost of Implementation (COI) reporting; align with Cap-and-Trade Regulation, including clarifications and updates to petroleum and natural gas systems reporting, and clarifications to product data reporting; provide minor updates to Fuel Supplier and Electric Power Entity requirements; and other procedural modifications that do not alter compliance with the current MRR.

This notice is to advise that the California Air Resources Board (ARB or Board), as the lead agency, approved the above action on September 18, 2014.

ARB concluded that this regulatory action is exempt pursuant to CEQA Guidelines §15061(b)(3) ("common sense" exemption) because it can be seen with certainty that there is no possibility that the proposed action may result in a significant adverse impact on the environment. A brief explanation of the basis for reaching this conclusion is included in Chapter IV of the Staff Report.

The Staff Report and all other related documents are available for public inspection on the ARB webpage at: <http://www.arb.ca.gov/regact/2014/ghg2014/ghg2014.htm>
