

Notice of Decision

- Project Title:** Amendments to the On-Road Heavy-Duty Diesel-Fueled Residential and Commercial Solid Waste Collection Vehicles Regulation to Include Heavy Cranes
- Project Location:** Statewide
- Public Meeting Date:** January 24, 2019; Agenda Item #19-1-2
- Project Description:** The proposed amendments include two distinct changes to the regulations, (1) to ensure that compliant Solid Waste Collection Vehicles (SWCV) do not experience registration delays at the California Department of Motor Vehicles due to recent changes in California law; (2) to provide a more cost-effective compliance option for specialized heavy cranes.

This notice is to advise that the California Air Resources Board (CARB or Board), as the lead agency, approved the above regulatory action on January 24, 2019.

The Board found that, on the basis of the whole record, the regulatory action will not result in any significant adverse impacts on the environment. CARB prepared an environmental analysis (EA) in accordance with the requirements of its certified regulatory program under CEQA. (Cal. Code Regs., tit. 14, §15251, subd. (d).). The EA, included in the Staff Report: Initial Statement of Reasons prepared for the proposed rulemaking, concluded implementation of the regulatory action would not result in any significant adverse environmental impacts. Mitigation measures were not made a condition of approval, and findings and a statement of overriding considerations were not adopted for this regulatory action.

The EA included in the Staff Report: Initial Statement of Reasons, and all other related documents, are available for public inspection on the CARB rulemaking webpage at: <https://ww2.arb.ca.gov/node/2537#anchor>
