

We are soliciting suggestions for compounds to be evaluated by Bill Carter as part of his Paint and Architectural Coatings Environmental Study (PACES) research (ARB Contract No. 07-339). We plan to discuss this at the March 25 RRAC meeting.

Dr. Carter plans to re-evaluate:

1. Texanol™
2. ASTM D235 IC (Bin 11) Mineral Spirits
3. ASTM D235 IIIC-1 (Bin 12) Odorless Mineral Spirits

We have six other candidates for testing:

4. Triethylamine (CAS# 121448)
5. Ethyl methyl ketone oxime (CAS# 96297)
6. Dimethylethanolamine (CAS# 108010)
7. 2-Ethylhexyl benzoate (CAS# 5444757)
8. 1-Nitropropane (CAS# 108032)
9. A compound from the Consumer Products program
